A STATE OF THE ART

The Amethyst Bio Mat Professional

It is manufactured to aid in the pursuit of human-beings' health and happiness.

RICHWAY

"This is the Bio Mat manual.
It describes how to use the Bio Mat in detail, which emits far-infrared radiation and negative ions."

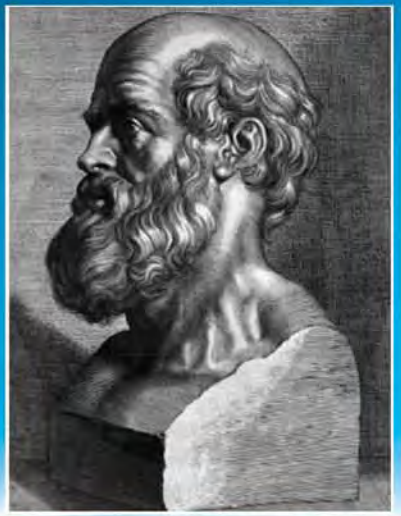
R I C H W A Y

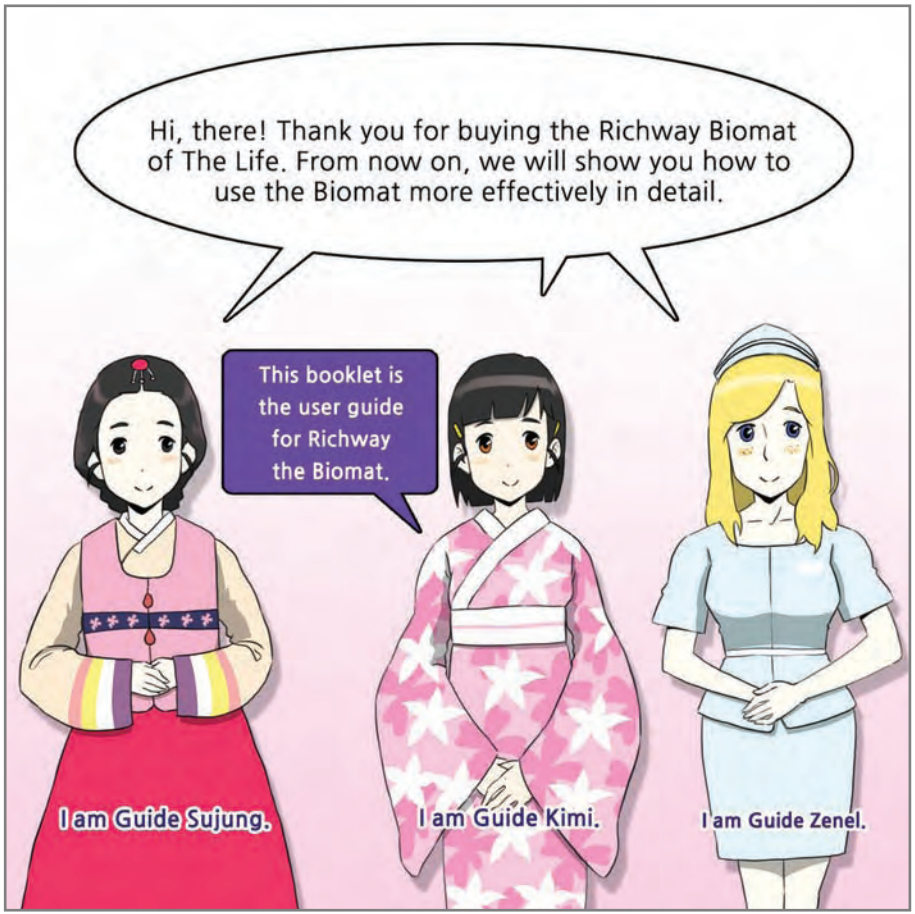
LIFE WITH A BIOMAT

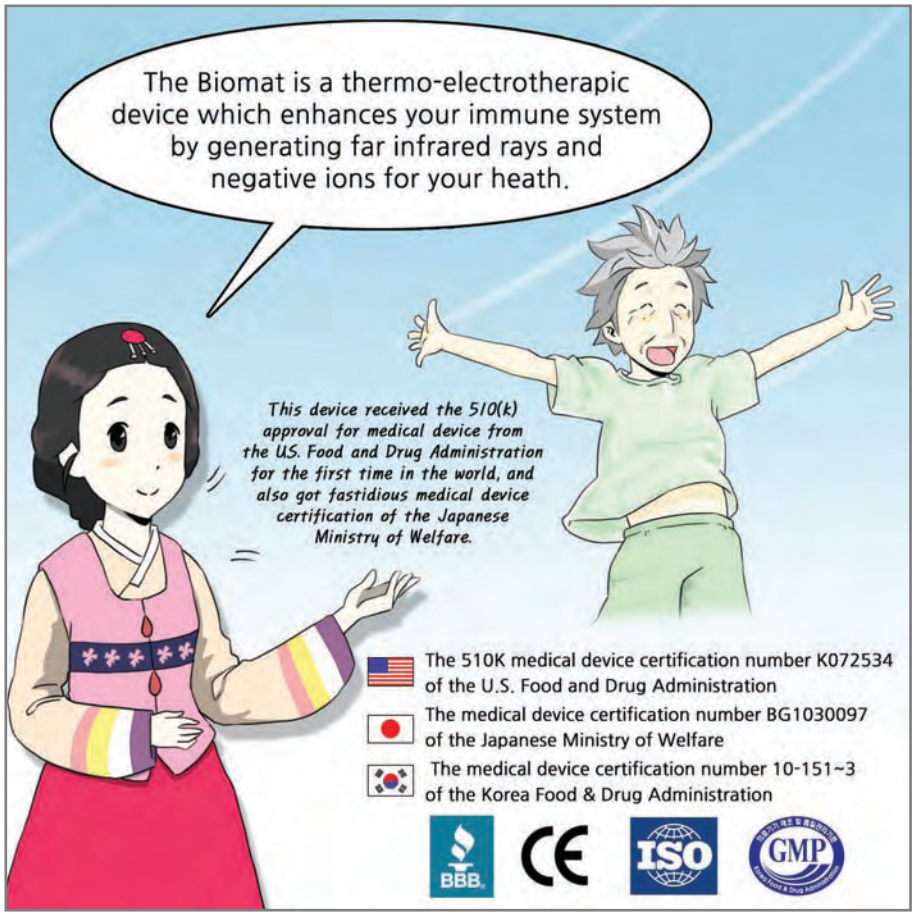
History of heat THerapy

The history of raising body temperature for therapeutic purposes can be traced back twenty four hundred years ago.

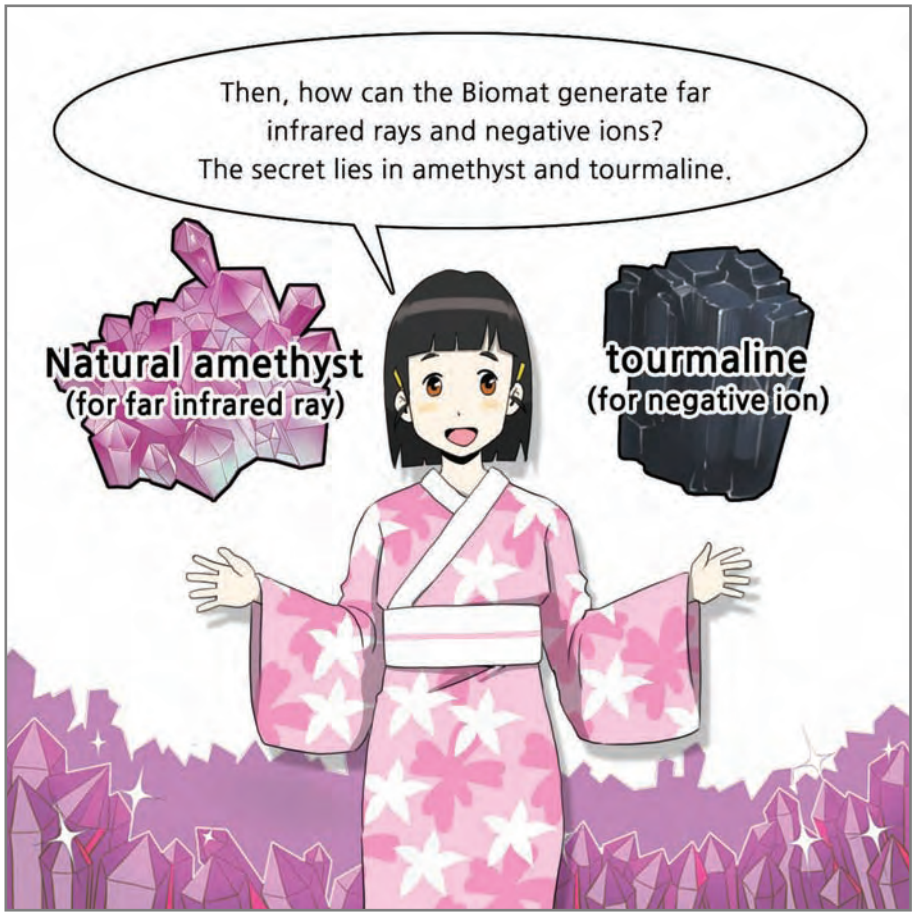
"Give me the power to produce fever, and I will cure all disease."
Hippocrates (BC 460)

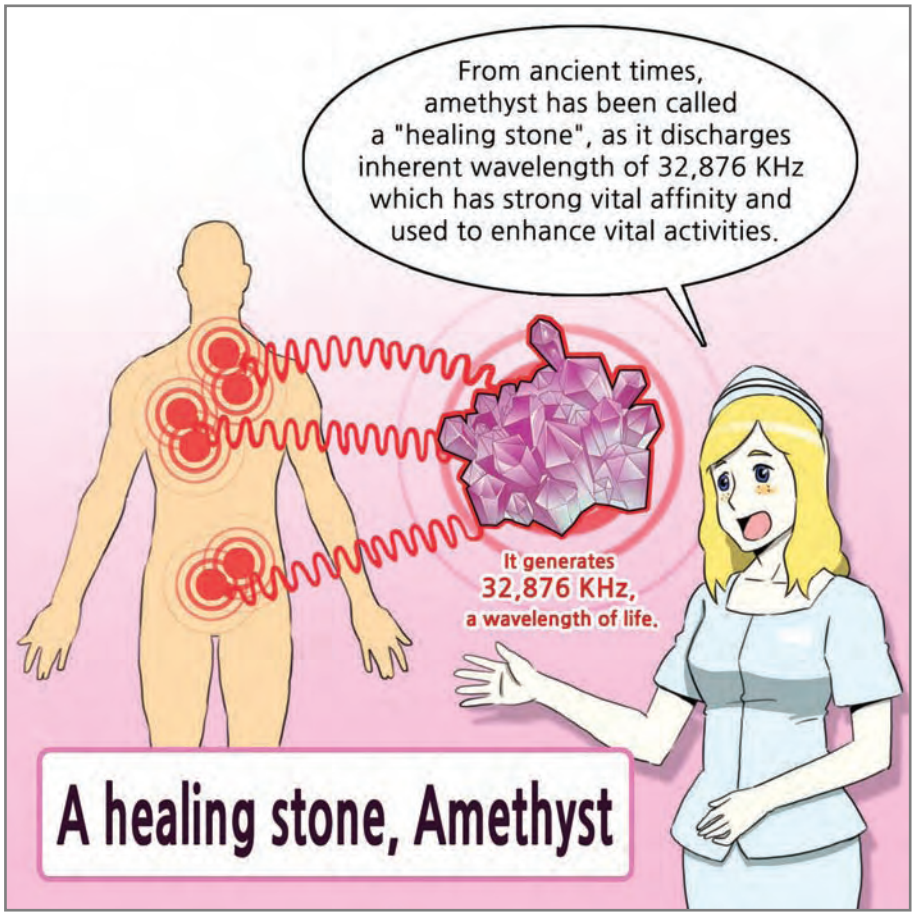






If I possessed the power to generate heat, I could cure every disease in the world. (Hippocrates, 450 BC)



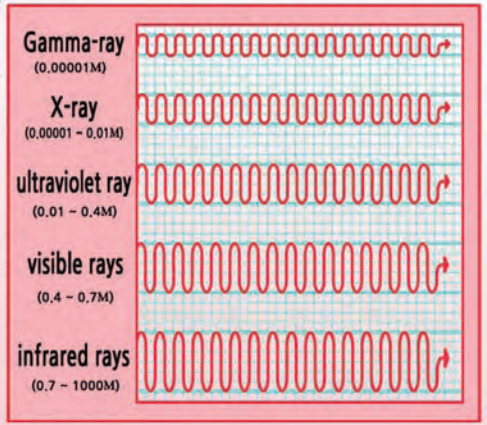


Far-infrared radiation is the safest energy in the world, as well as the light of life. (Hwang Sang, MD, 1995)

Type of light based on wavelength

Any light has its inherent wavelength. Gamma-rays have the shortest wavelength, and then the wavelength increases in sequence of X-rays, ultraviolet rays, visible rays (0.4~0.7nm) and then finally far infrared rays with deep impact power and powerful thermotherapic energy.

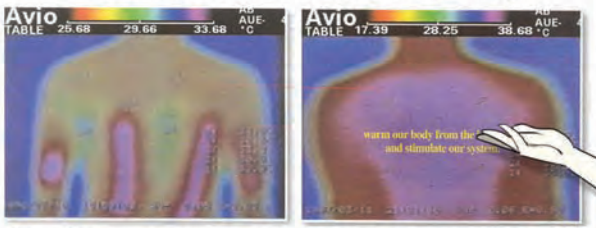
Amethyst emits more powerful far infrared rays with deep impact power and more powerful thermotherapic energy.



* M = micron

Then what is the difference between heat and far infrared ray?
It is difficult for external heat to penetrate into our body, but far infrared rays can penetrate deeper into our bodies and generate intense frictional heat which would stimulate our cells to move.

Photos showing difference between an ordinary mat and the Biomat with far infrared ray

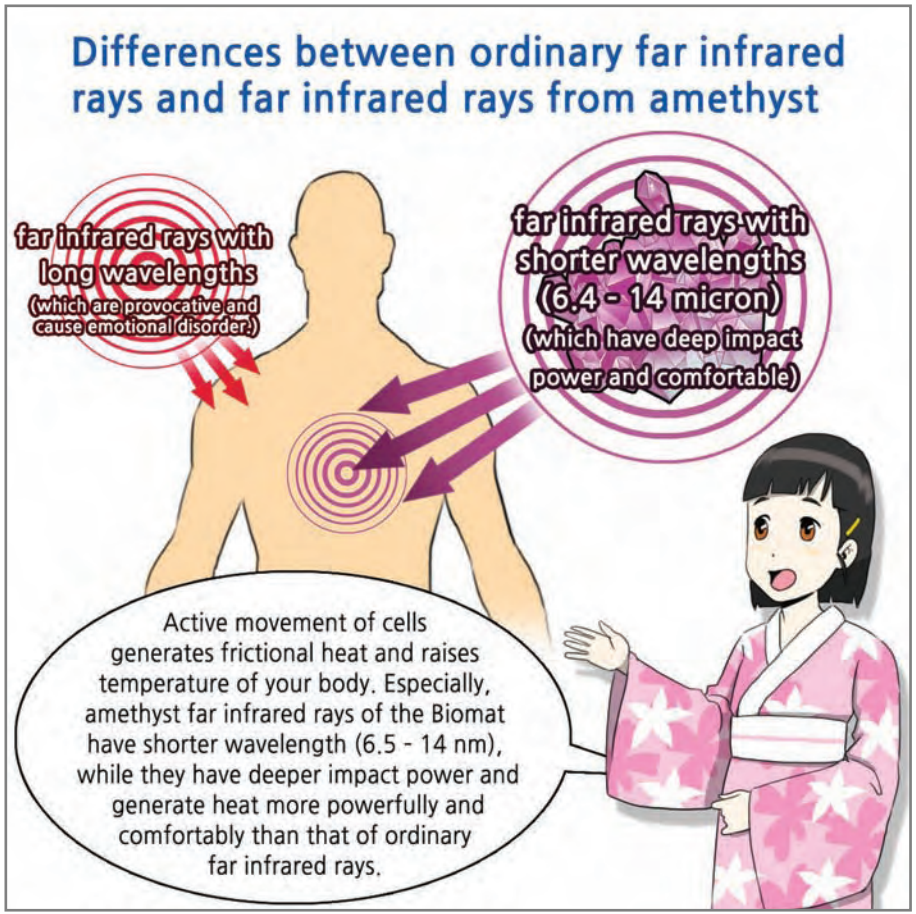


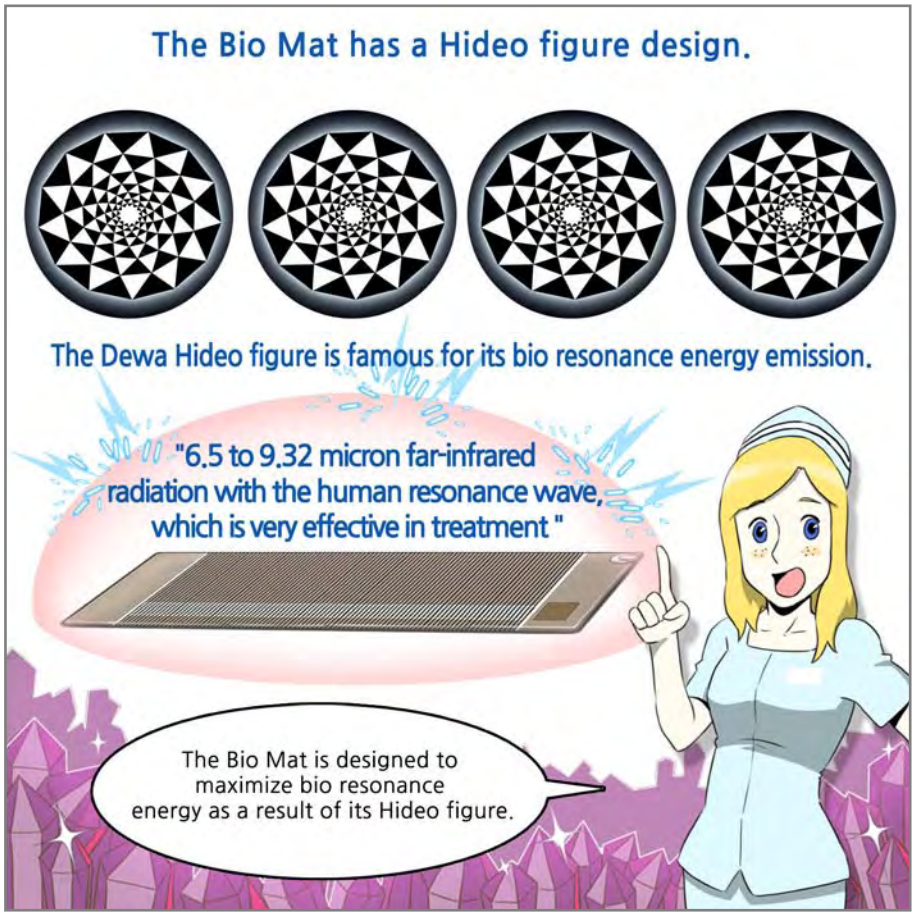
When lying on an ordinary mat

When lying on the Biomat

Isn't it easy, huh?

A good surgeon has an eagle's eye, a lion's heart, and a lady's hand. (British Saying)





Exercise is enjoyment. There is no happiness without working out. (ArnoldSchwarzenegger)

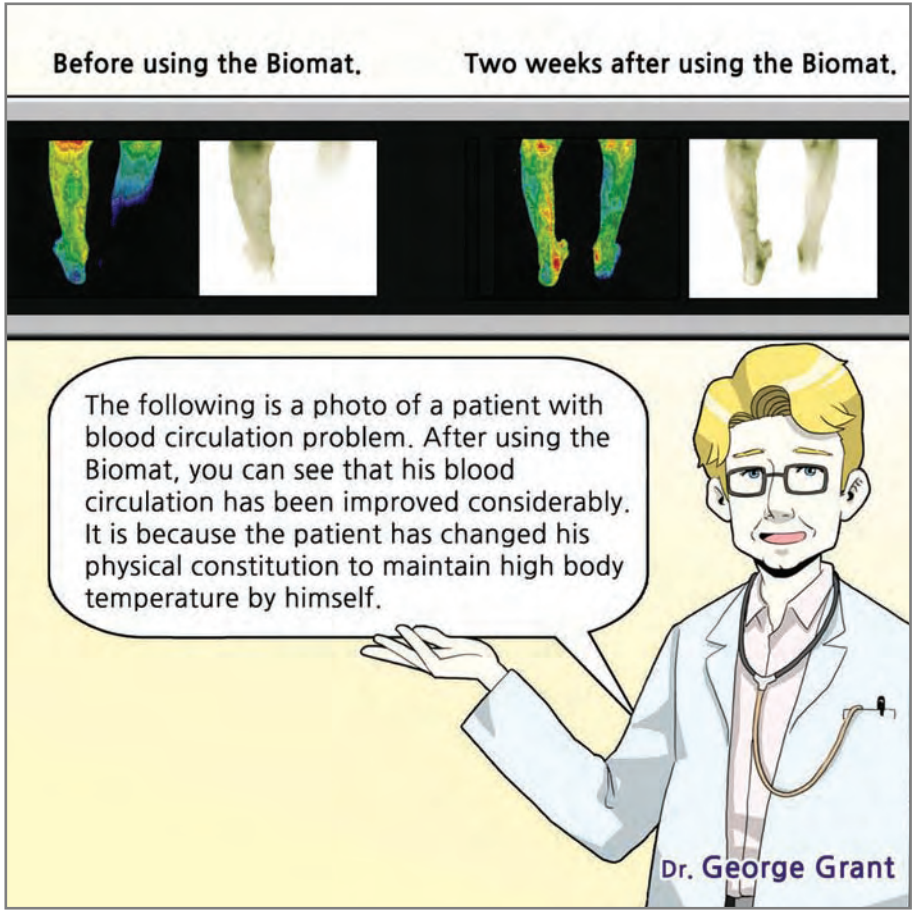
Excellent heat insulation effects of the Biomat

The Biomat warms up your body which would not cool down soon, as the far infrared rays would change your physical constitution to generate heat for yourself by stimulating mitochondria in cells.

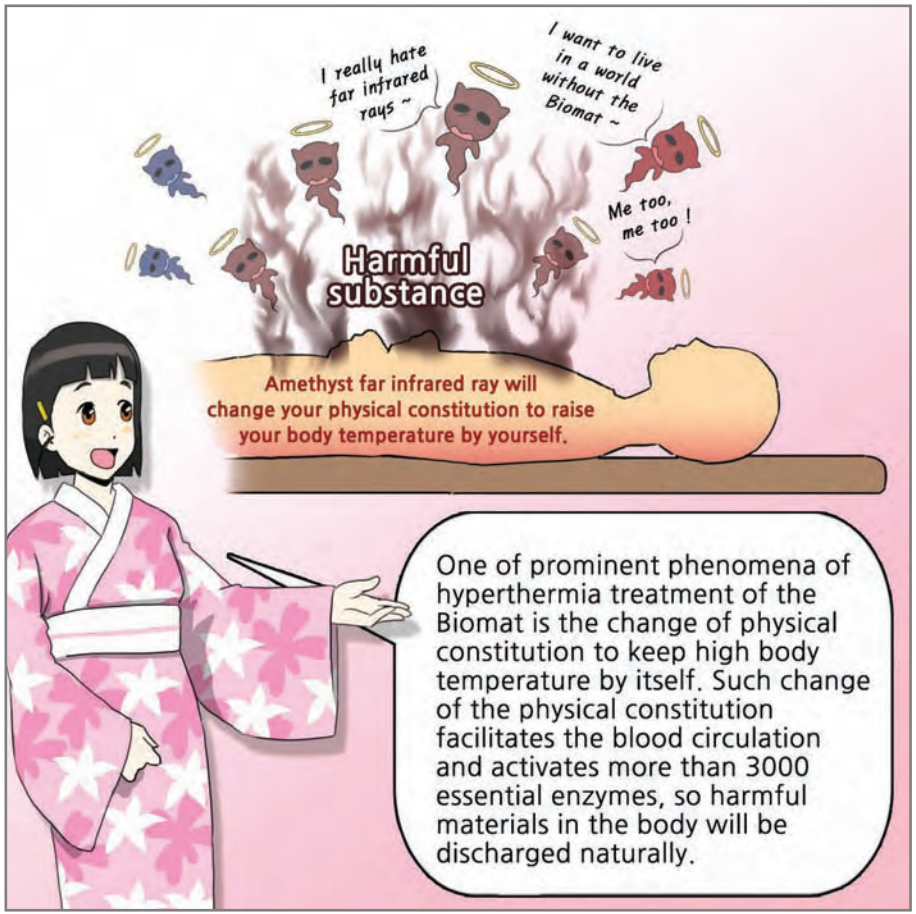
the Biomat test data of Telesum in the US

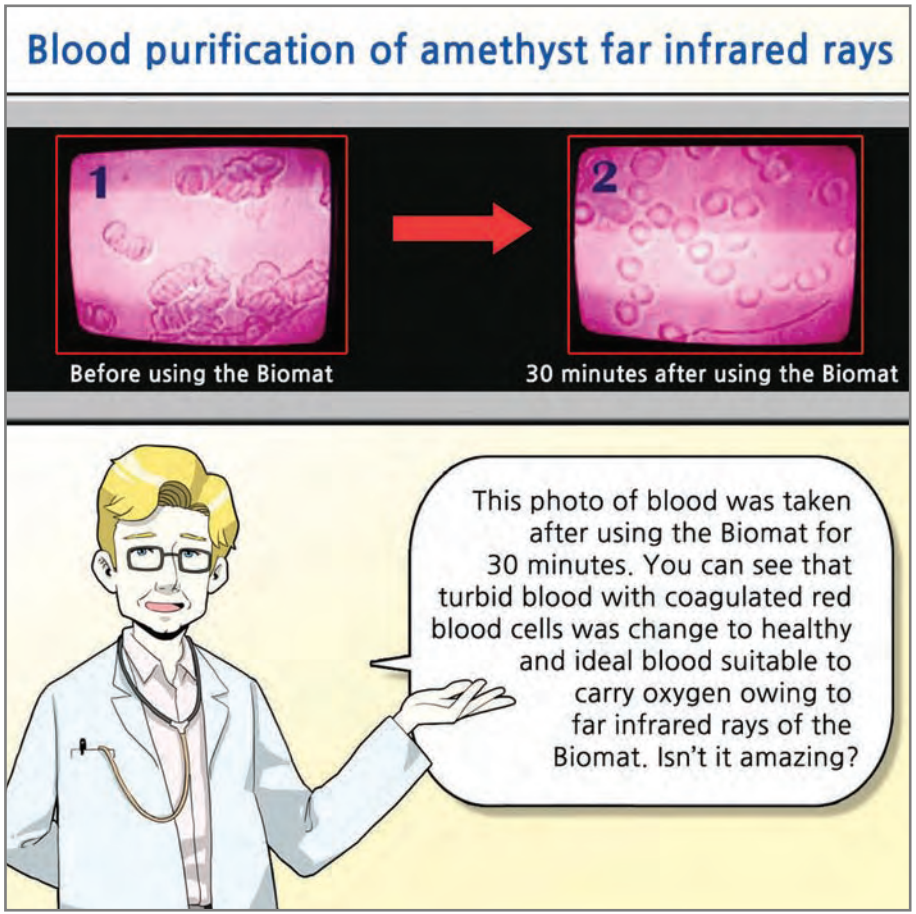
Set low temperature in back of the head (113˚F/45˚C)		set low temperature in middle part of the waist (113˚F/45˚C)	
time	temperature	time	temperature
0 second	24.4˚C	0 second	24.4˚C
30 second	26.6˚C	30 second	26.6˚C
60 second	24.5˚C	60 second	24.5˚C
90 second	26.6˚C	90 second	26.6˚C
1 hour	27.6˚C	1 hour	27.6˚C
Check change of body temperature after turning off the Biomat.			
2 hour	26.1˚C	2 hour	33.9˚C
4 hour	26.7˚C	4 hour	33.8˚C
6 hour	27.9˚C	6 hour	34.5˚C
8 hour	27.3˚C	8 hour	34.7˚C

*Body temperature has maintained the same level 8 hours after turning off the Biomat.



There are about 1000 times more toxic heavy metals used than 50 years ago in the system of modern men. (The Journal of the American Medical Association, 1974)

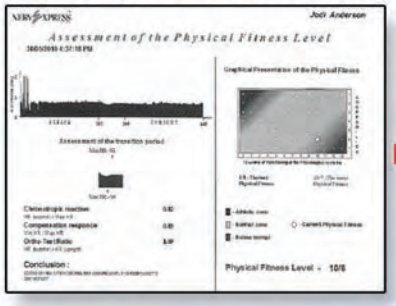




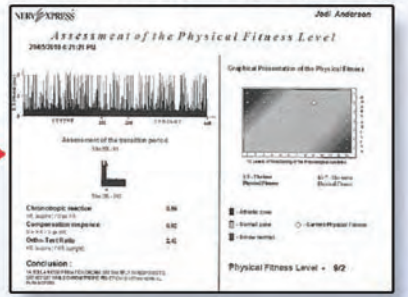
The average adult battles cancer furiously about six times in his or her lifetime.

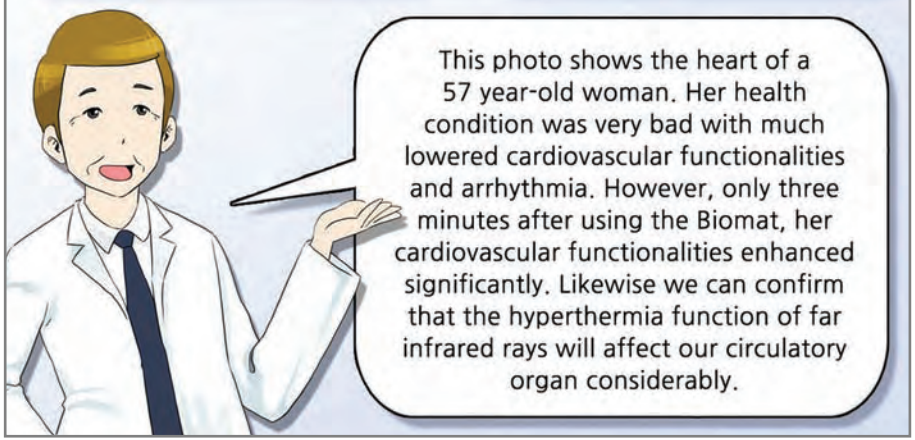
The Biomat hyperthermia function will enhance cardiovascular activities

Before using the Biomat(2010.5.29)

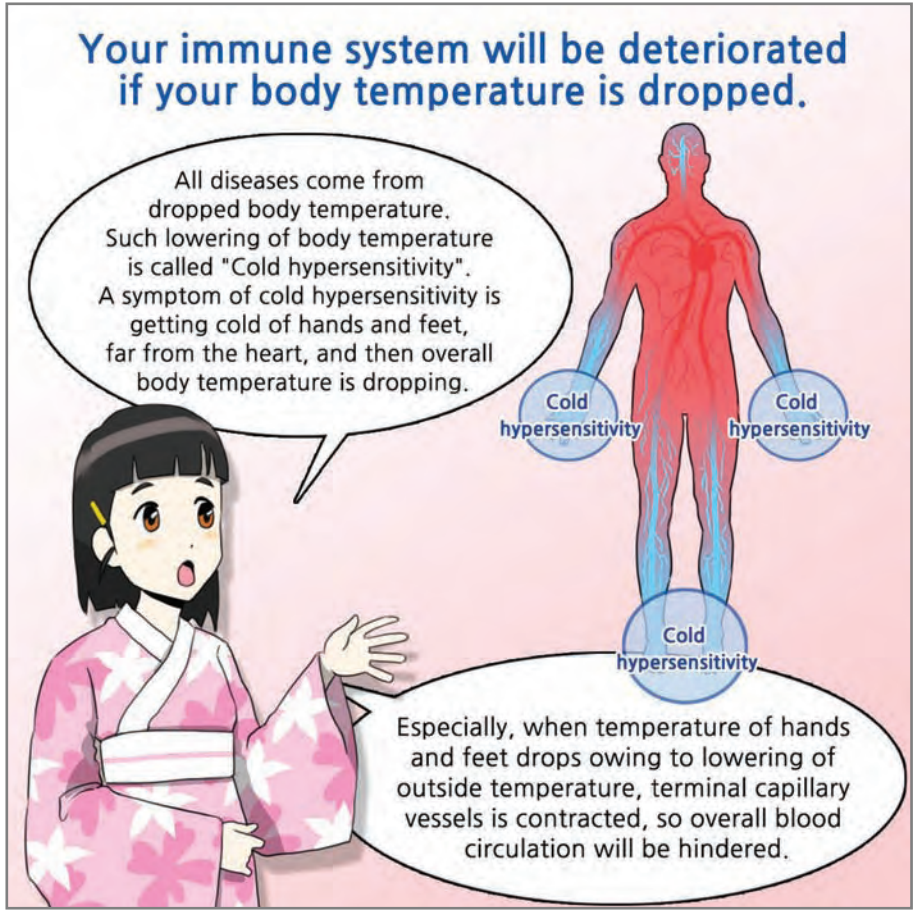


30 minutes after using the Biomat(2010.5.30)

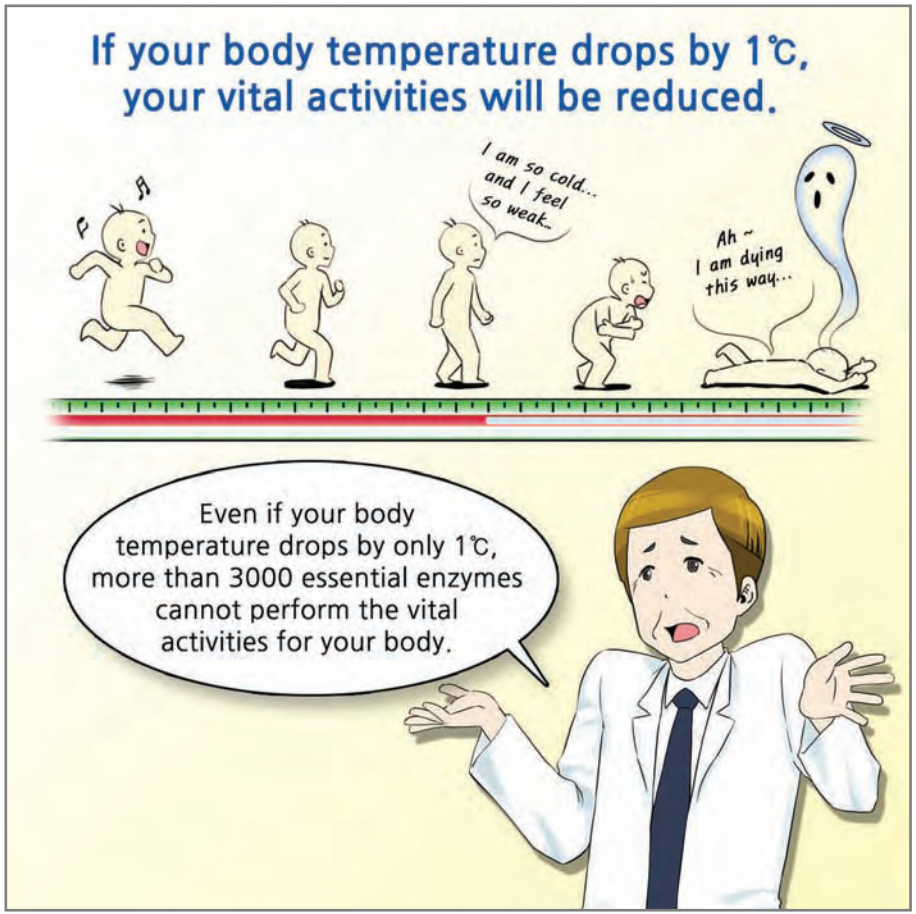


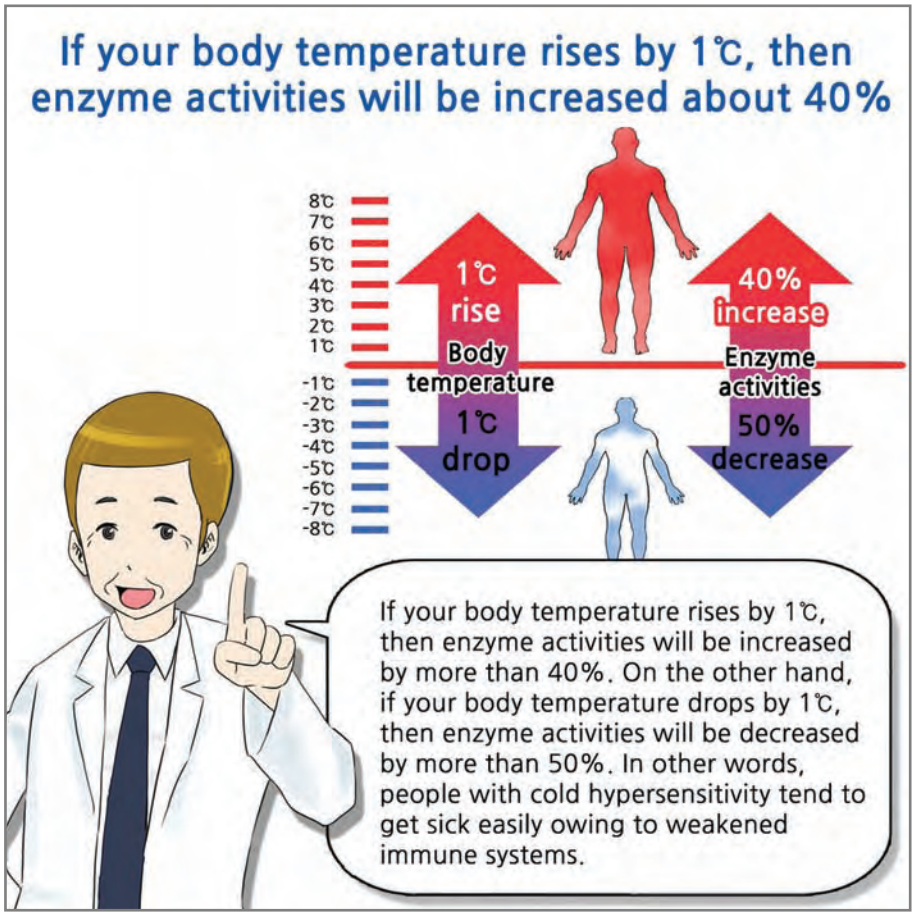


Your immune system will be deteriorated if your body temperature is dropped.

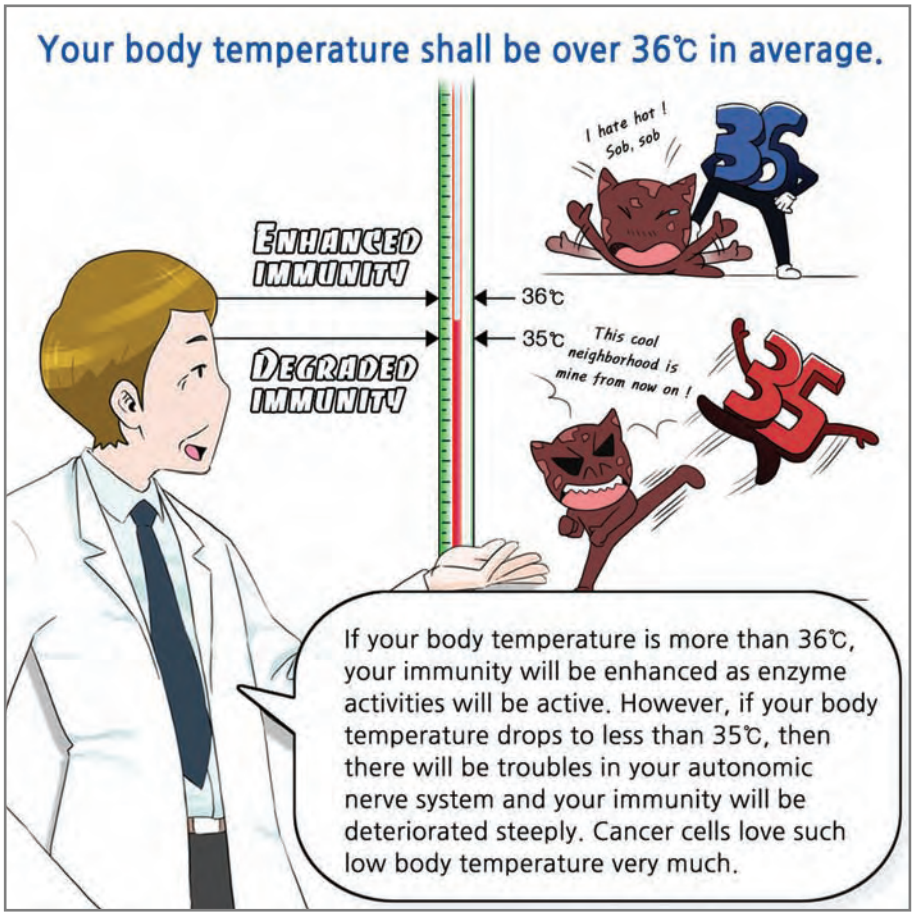


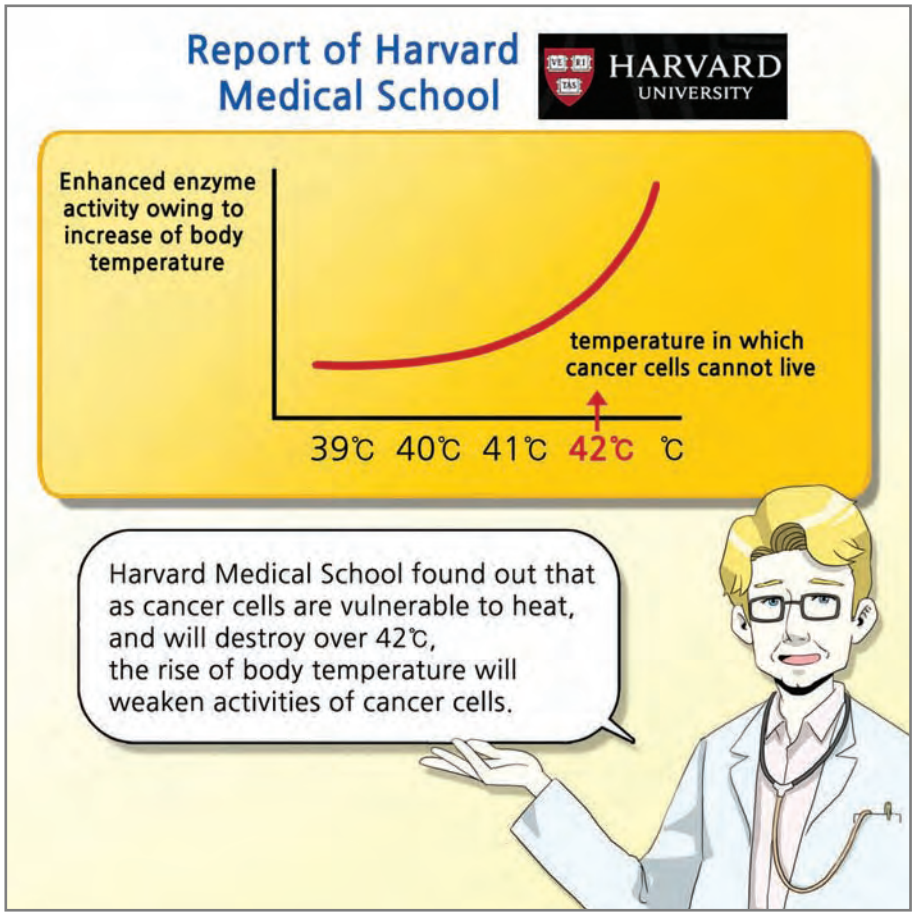
"Kill off the bad bacteria and clean up the waste"; that's what your immune system works to do all day.



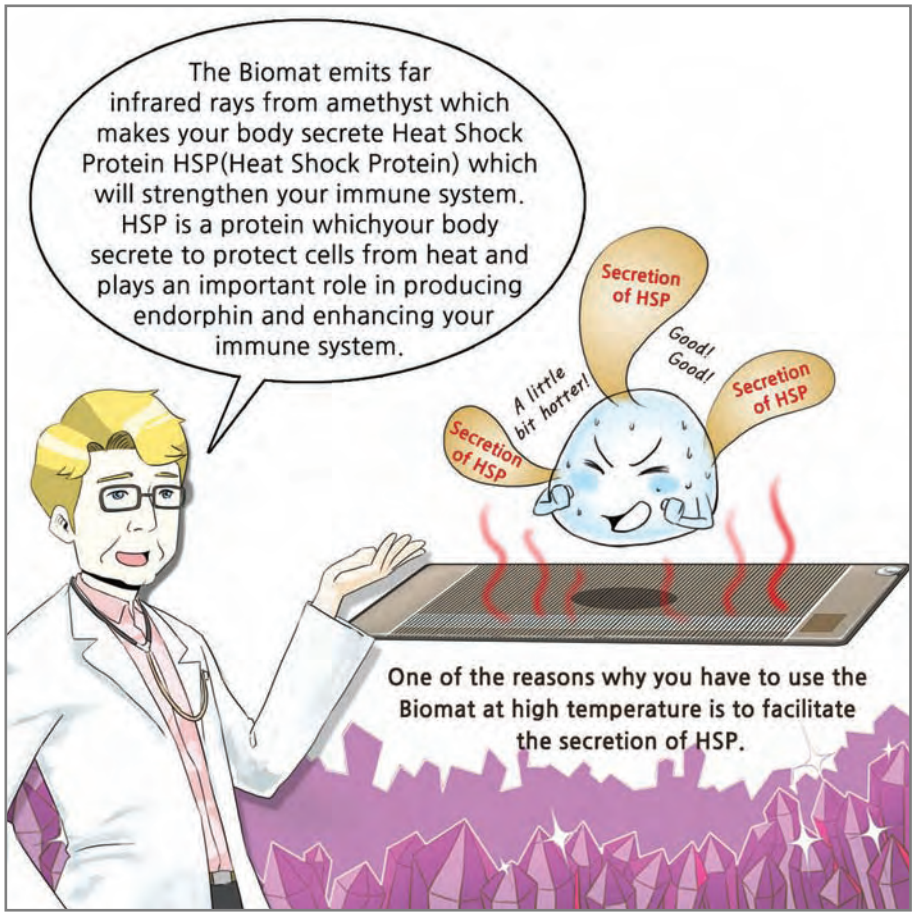


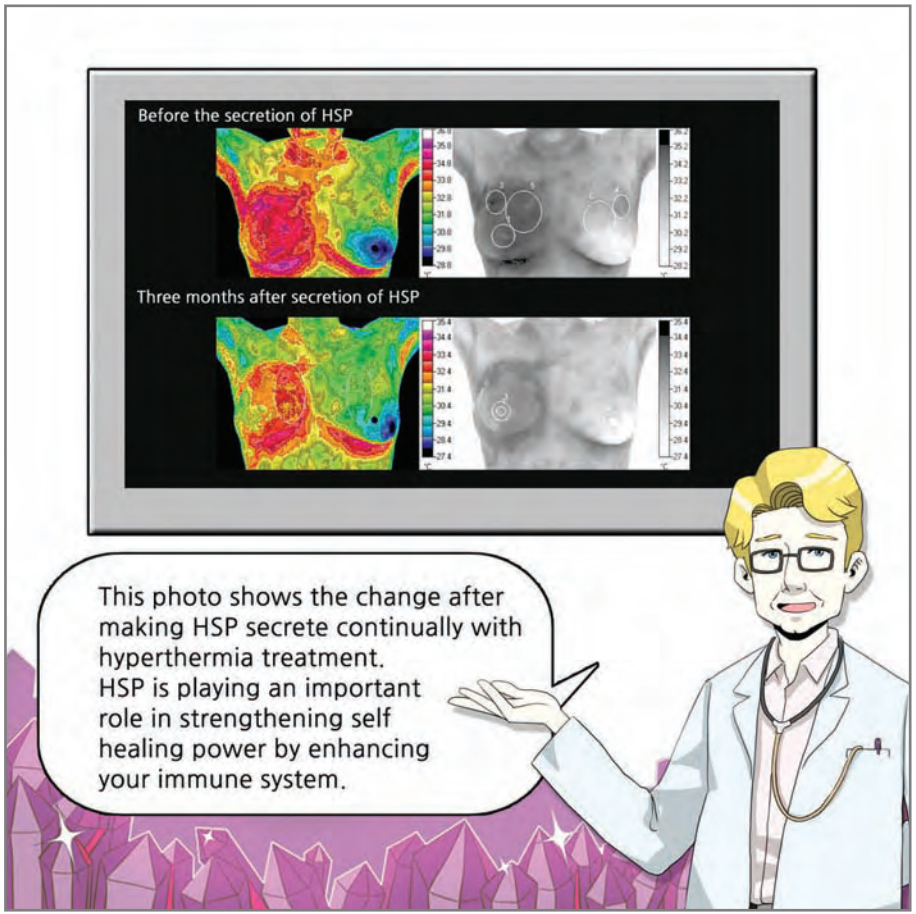
The immune system seeks out and destroys all the cells that don't assist in performing normal physiological activities.





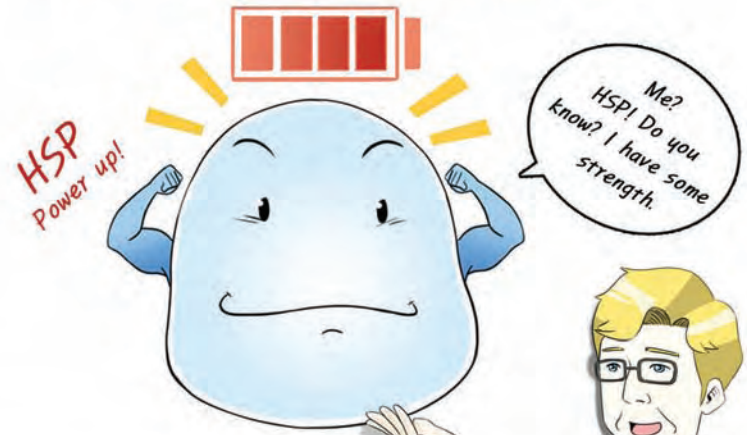
Every day your cells are divided about two billion times.





Eating a diet that constantly raises blood glucose levels is like trying to put out a forest fire while someone nearby is throwing gasoline on the trees. (Lorraine Day, MD, 1984)

HSP increase the generation of endorphin, NK-cells, T-cells, and lymphocytes.



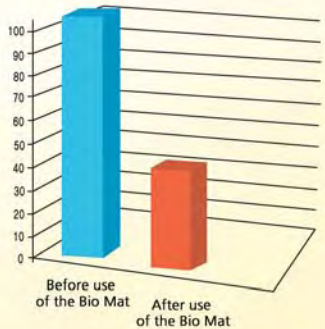
HSP has **three effects** in large

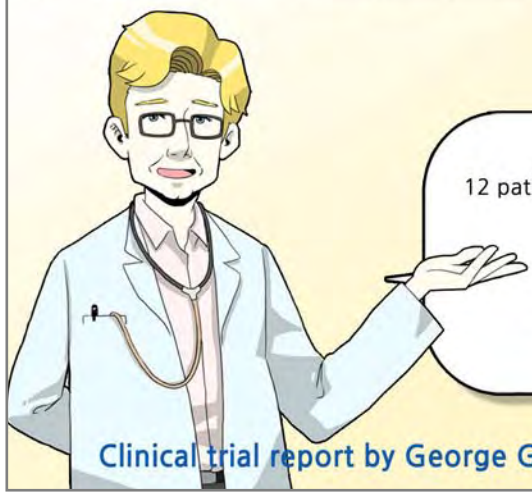
(1) Enhance your immune system
(2) Recover physical strength by blocking off fatigue stuff
(3) Facilitate secretion of endorphin, an internal pain relieving material

The Bio Mat reduces stress hormones by 78%.

Magnetic resonance imaging test, Electroencephalogram test, Electrocardiogram test, Blood cortisol test

Level [mcg/dcl]	Pre Test Results Before use the Biomat	Post Test Results After use the Biomat
Magnetic resonance imaging test [0-100]	68	34
Electroencephalogram test [100-1000]	575	285
Electrocardiogram test [1-10]	2	6
Blood Cortisol test [5-25]	16	7

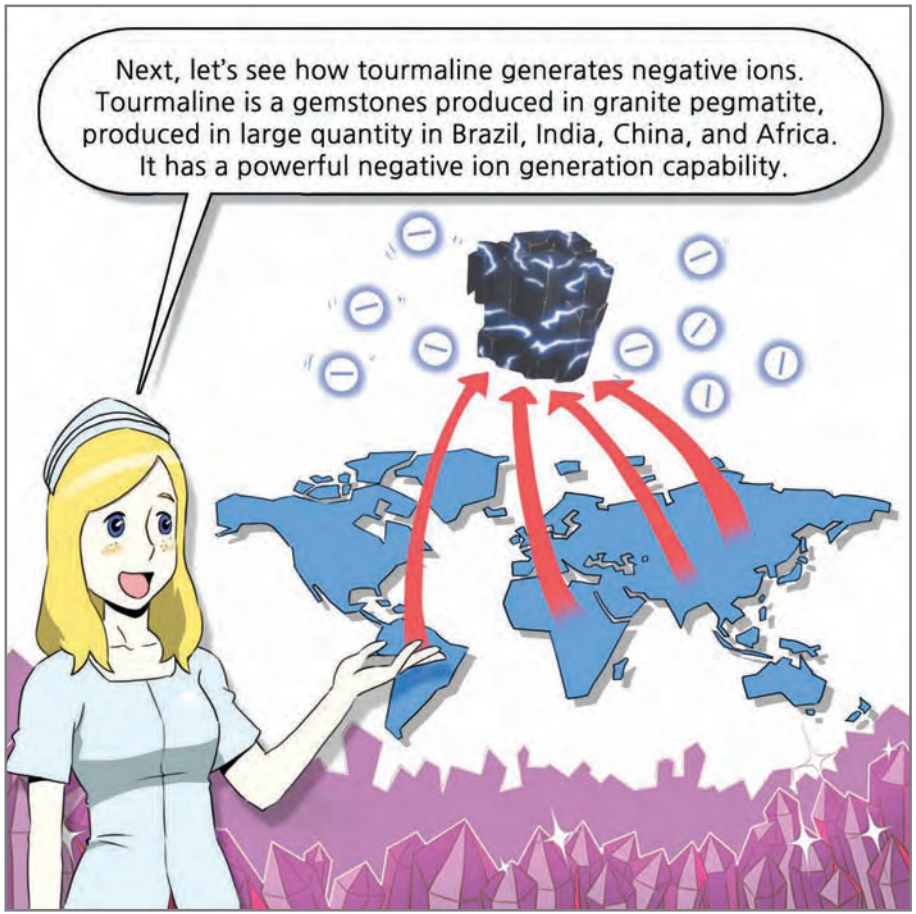




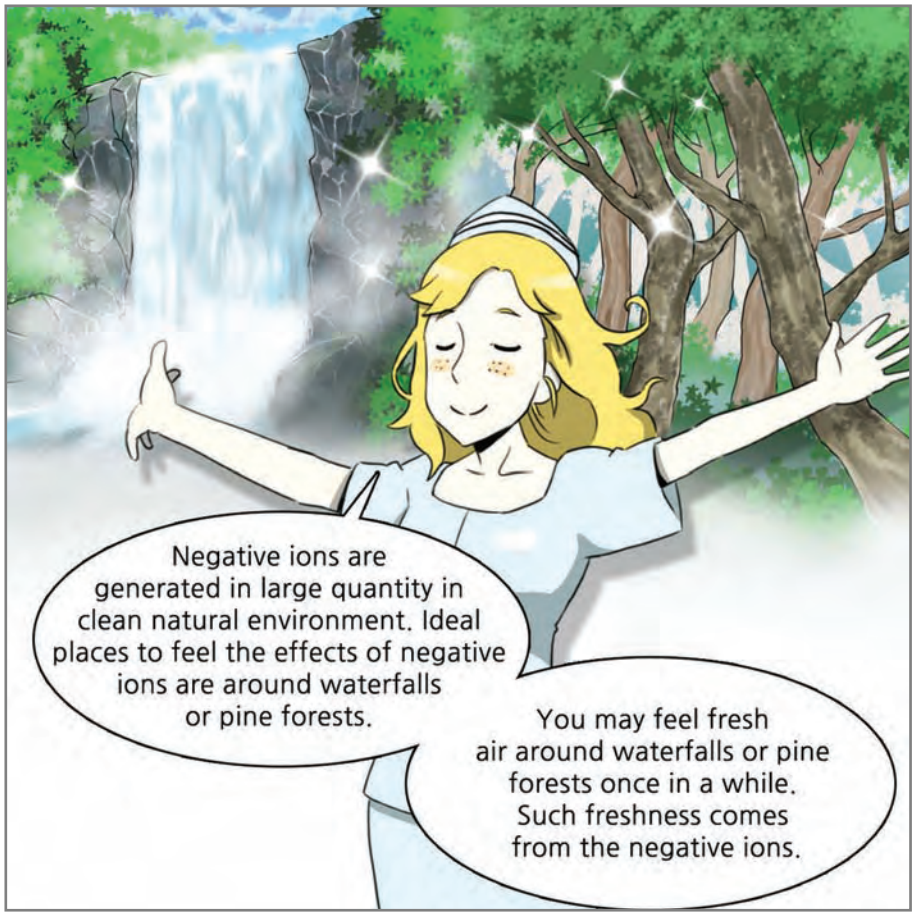
After an experiment in which 12 patients used the Bio Mat for one hour a day to find out if the Bio Mat can reduce stress levels efficiently, the resultsshowed that stress hormones, including cortisol, are reduced by 78%.

Clinical trial report by George Grant, a Canadian M.D.

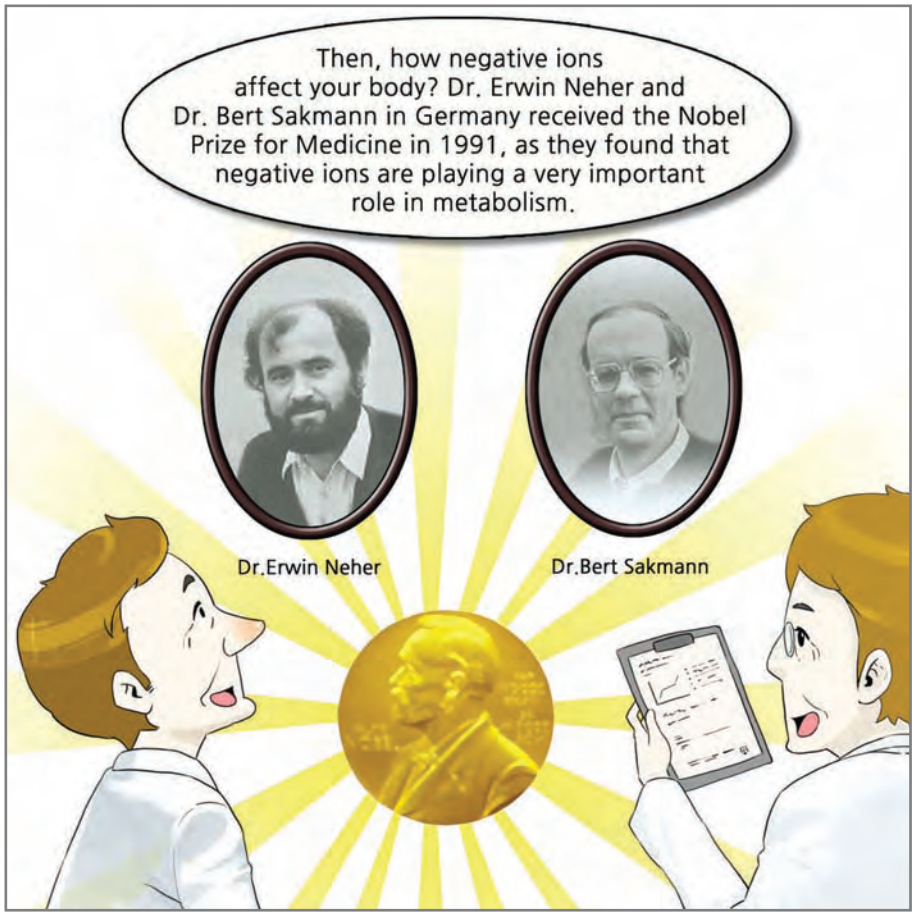
If you can't be free from stress, it is like fighting a disease with your hands tied.



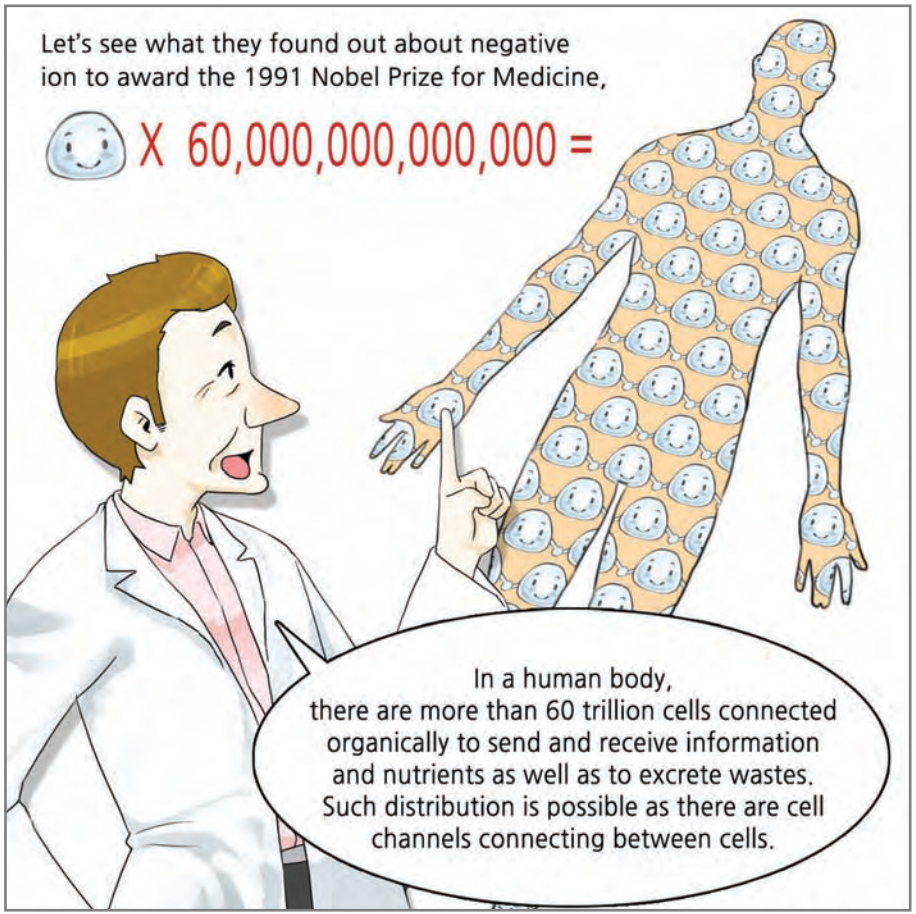
People put stress upon themselves. One may as well altogether dispense with feelings including hatred, abomination, obsession, and selfishness.



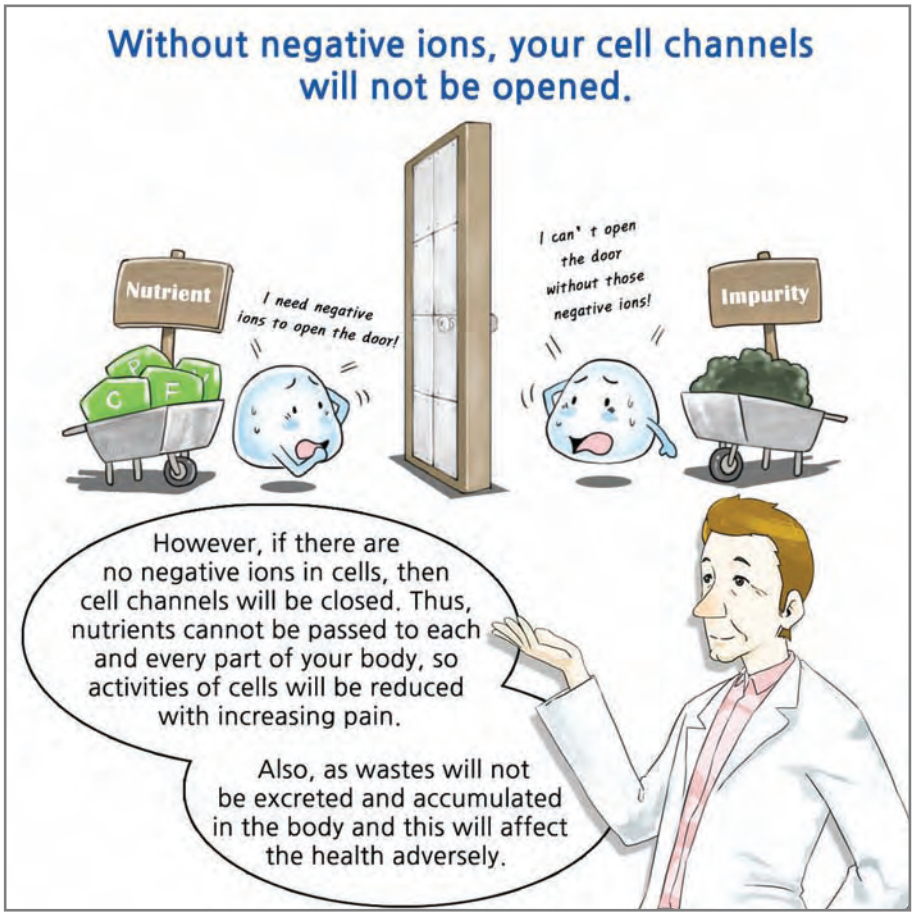
Only after you have embraced the feelings of delight, passion, gratitude, and consideration, will you receive the life from God.

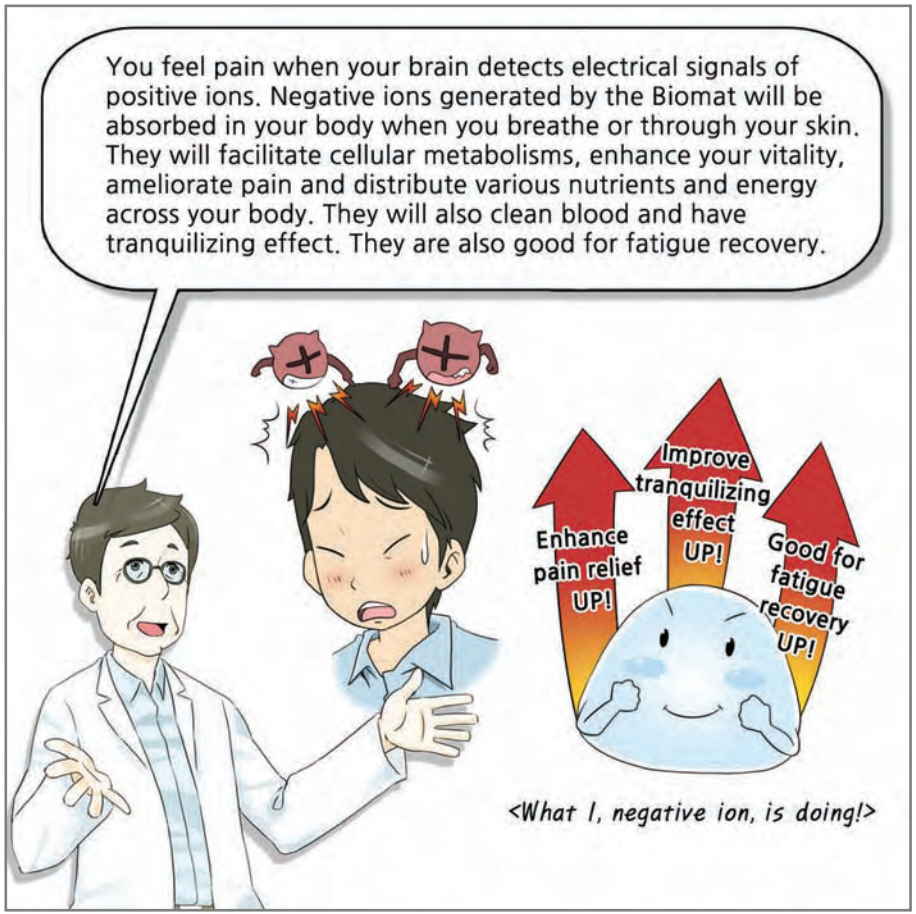


Then, how negative ions affect your body? Dr. Erwin Neher and Dr. Bert Sakmann in Germany received the Nobel Prize for Medicine in 1991, as they found that negative ions are playing a very important role in metabolism.
Dr.Erwin Neher
Dr.Bert Sakmann

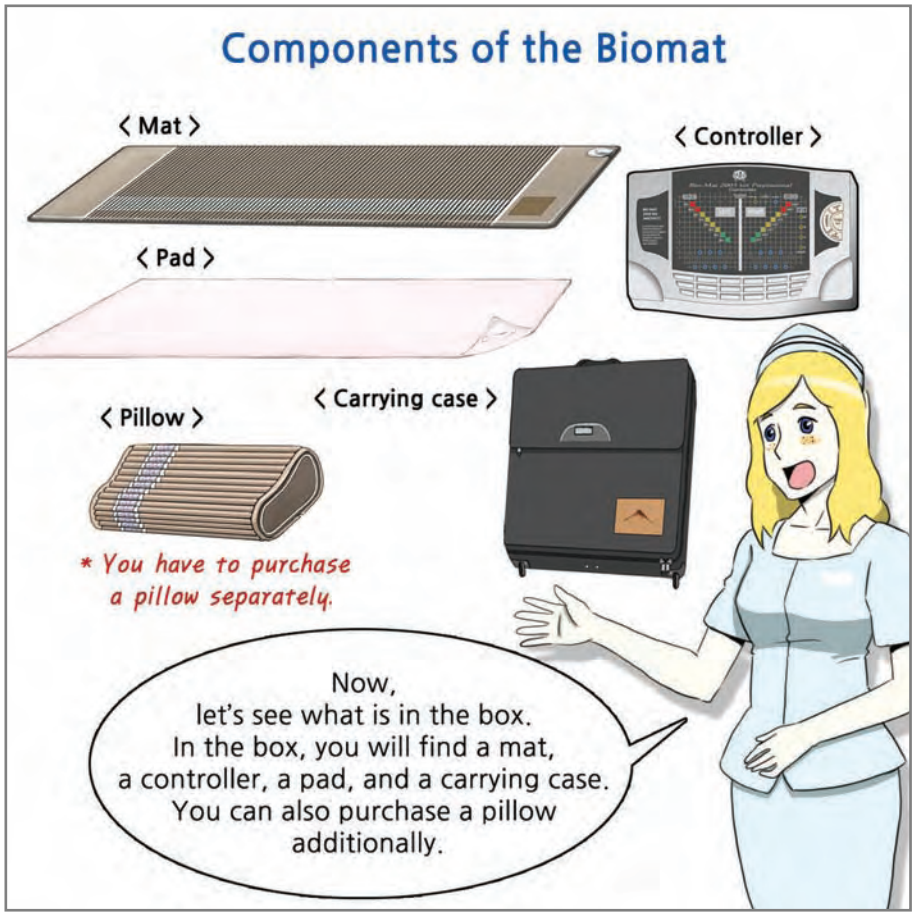


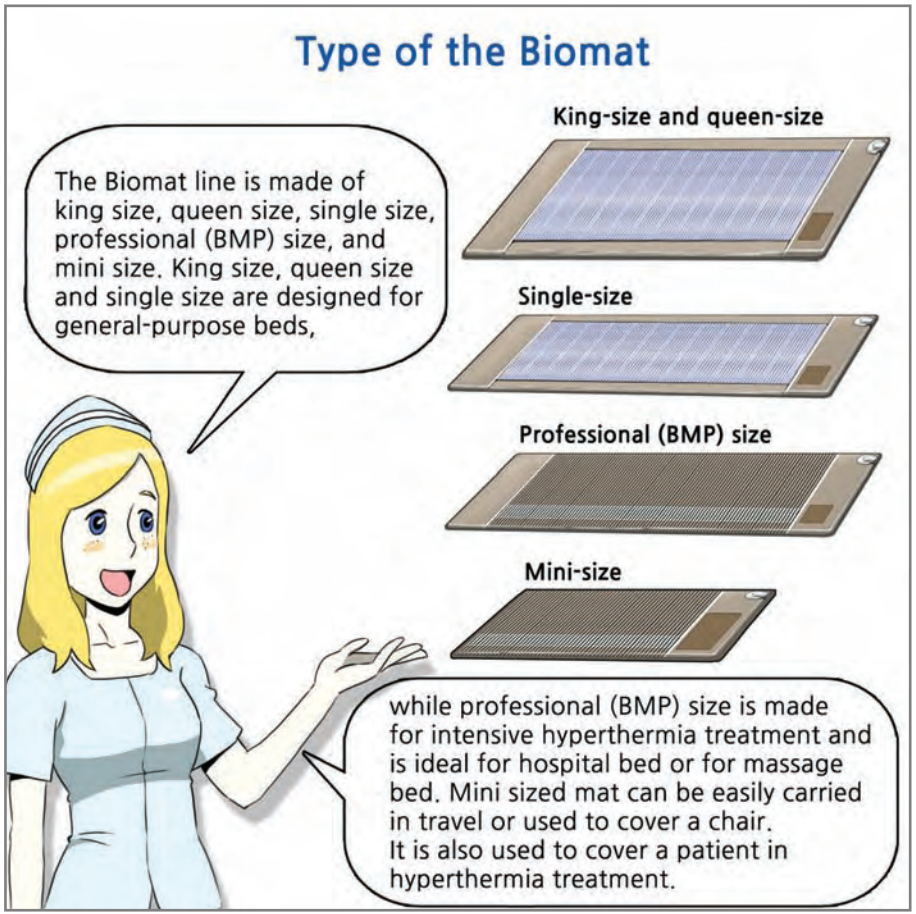
Let's see what they found out about negative ion to award the 1991 Nobel Prize for Medicine,
X 60,000,000,000,000 =
In a human body, there are more than 60 trillion cells connected organically to send and receive information and nutrients as well as to excrete wastes. Such distribution is possible as there are cell channels connecting between cells.



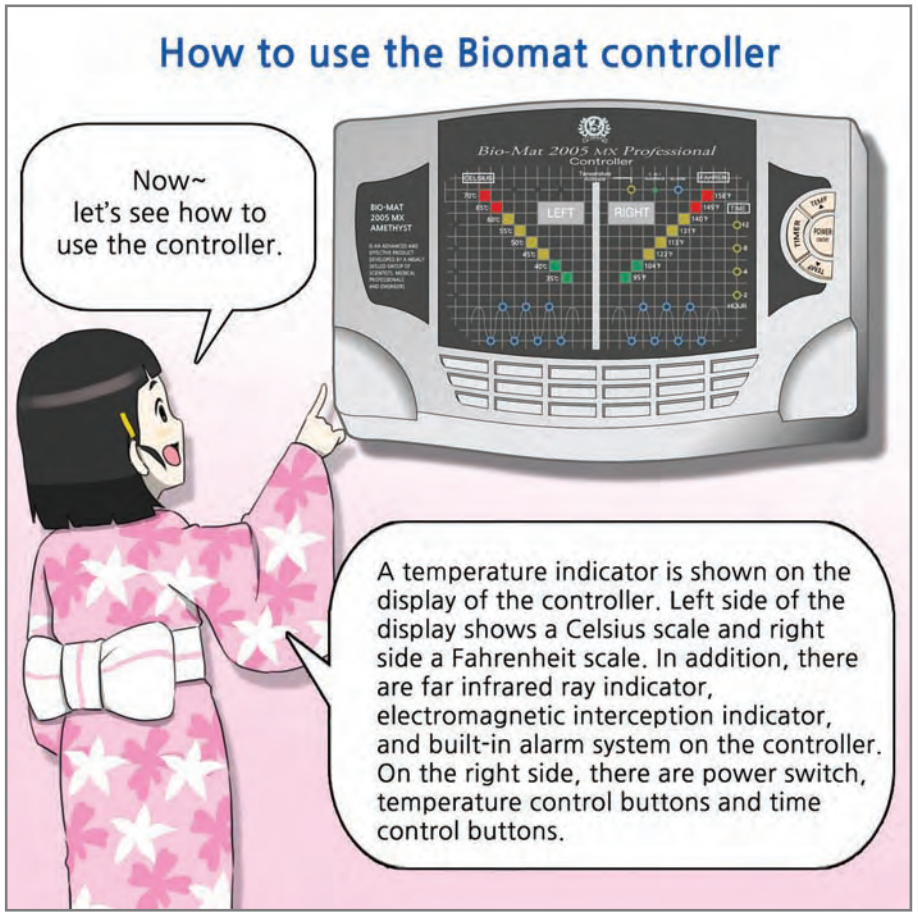


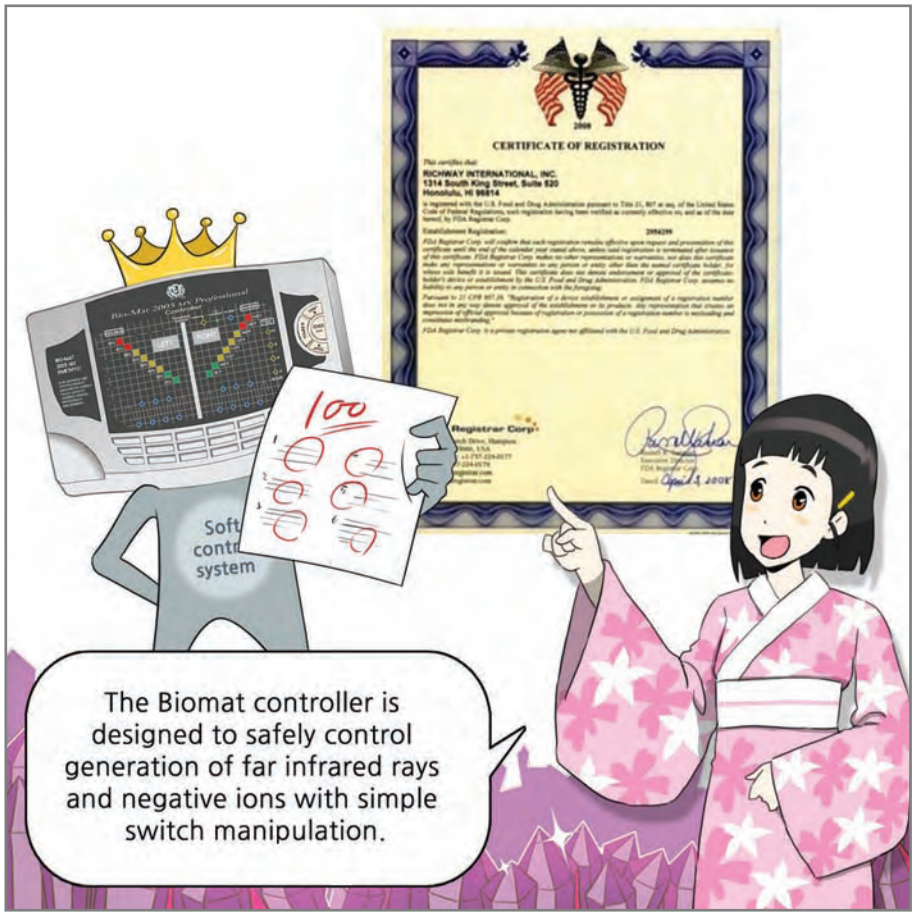
In the end, the love you take is equal to the love you make. (Abbey Road, 1969)



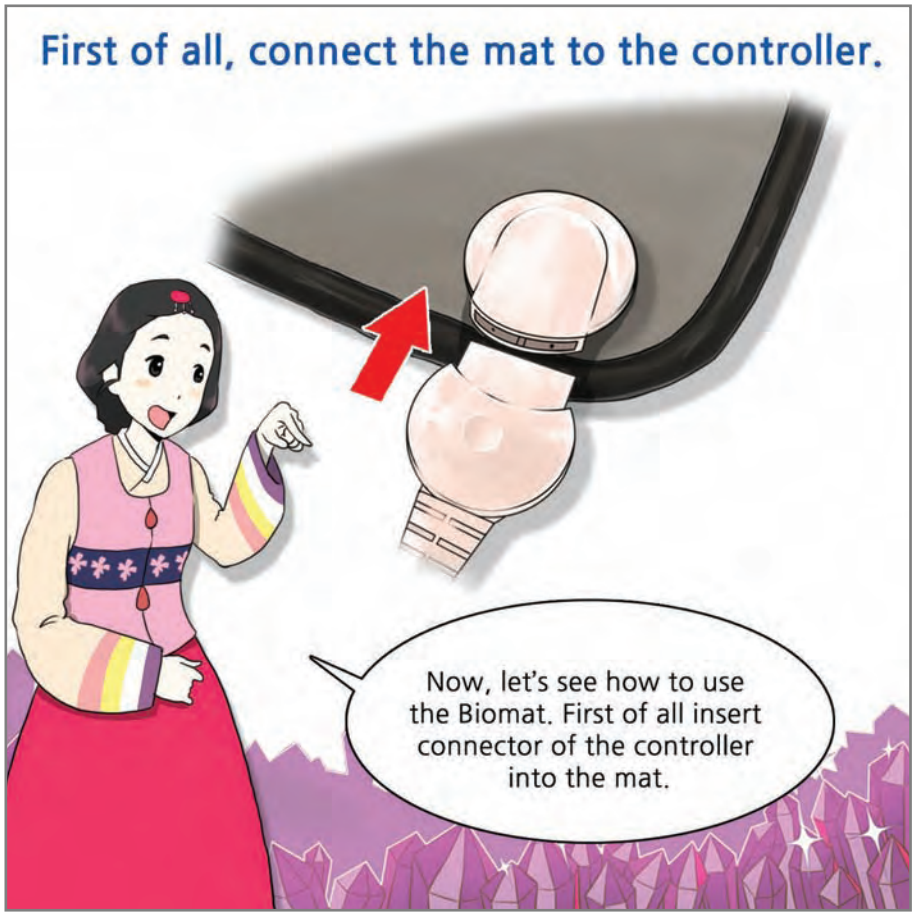


Cells communicate with you and follow you, so please love your cells warmly.

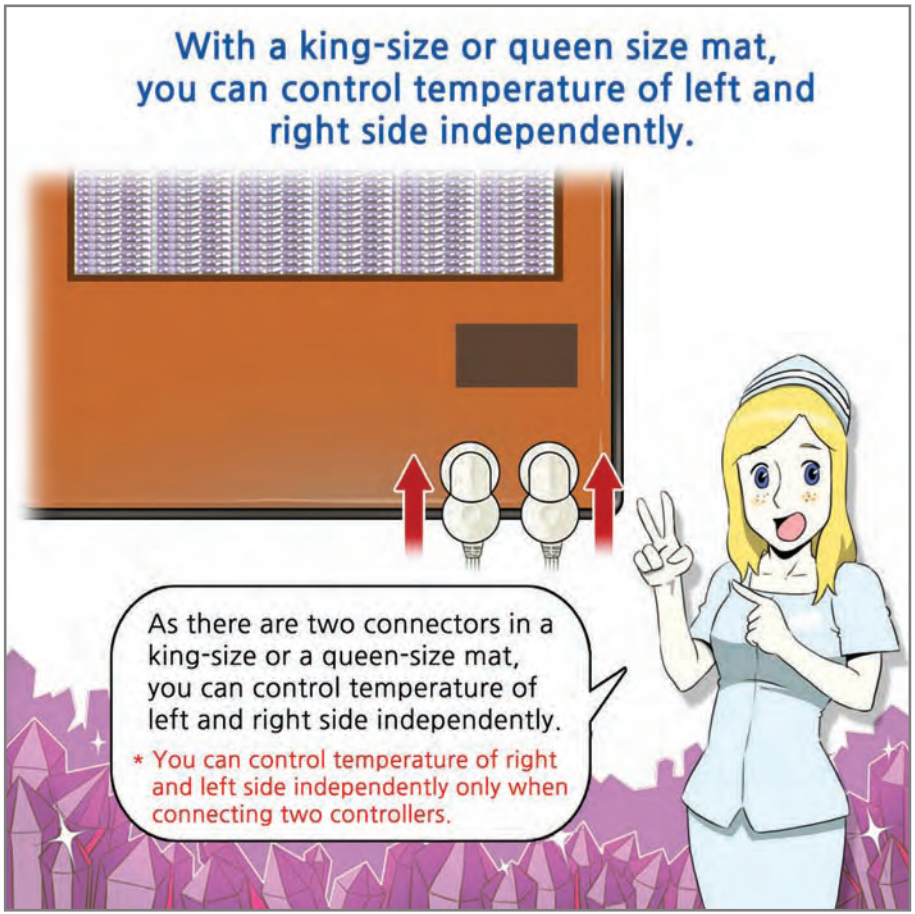




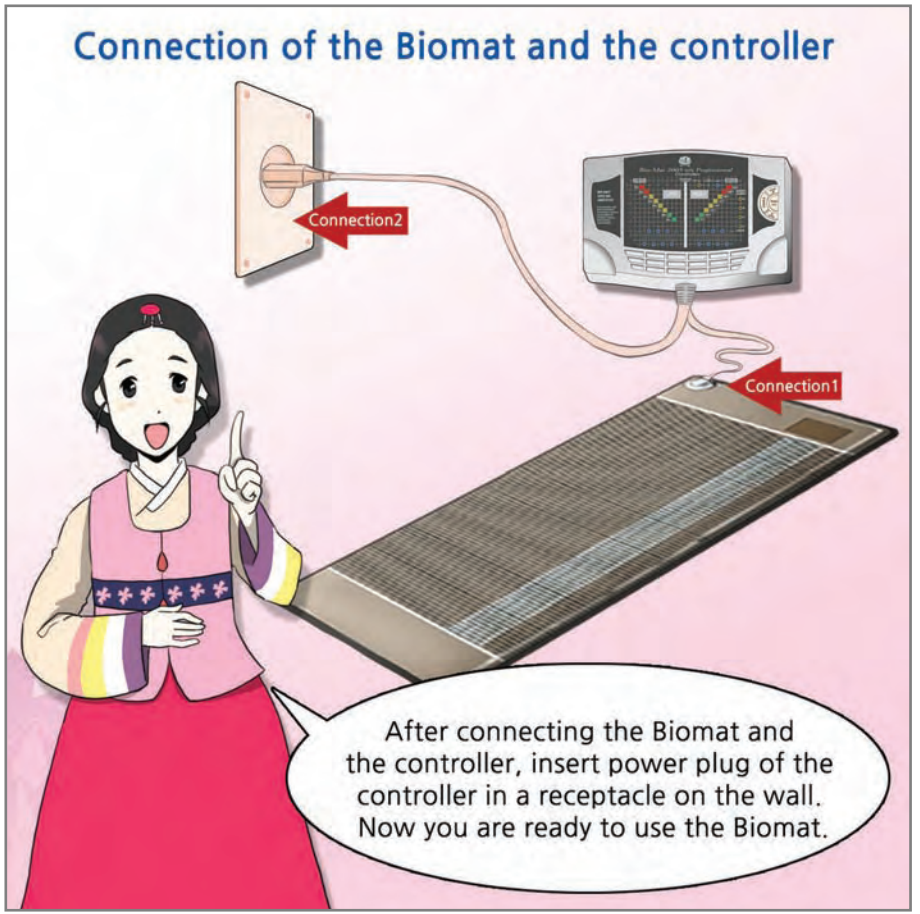
Diseases which cannot be treated through diet are incurable with any medicine. (Hippocrates, 450 BC)



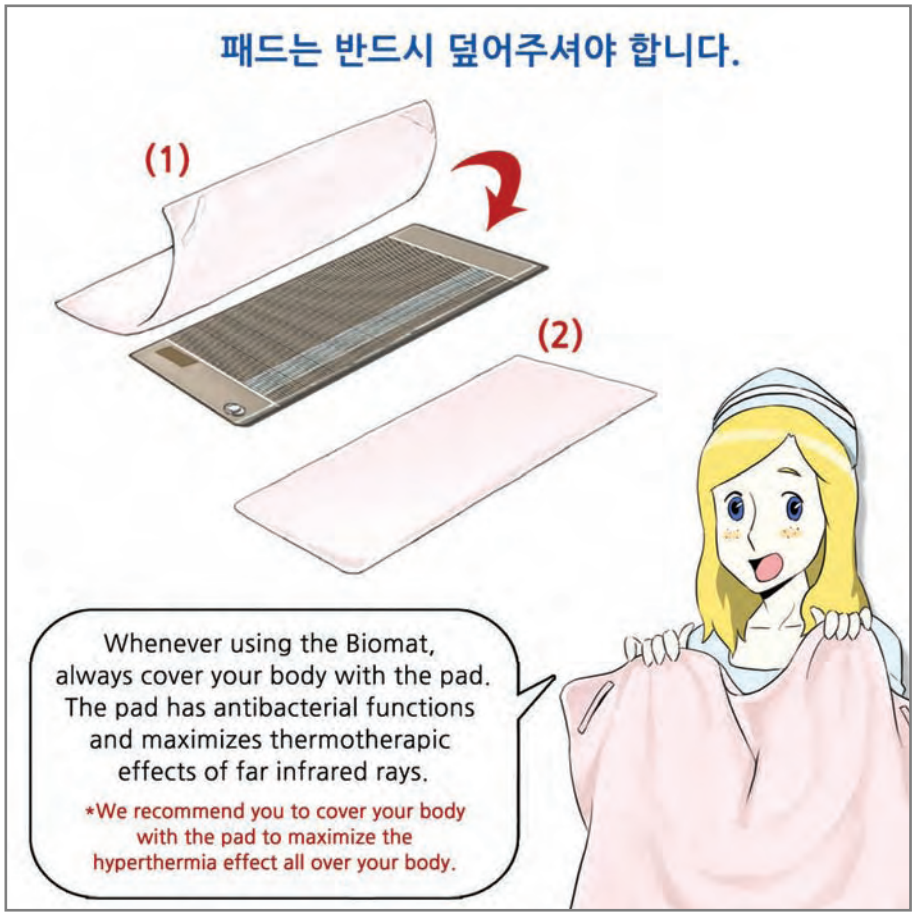
Frustration and anger result in diseases. (French Saying)

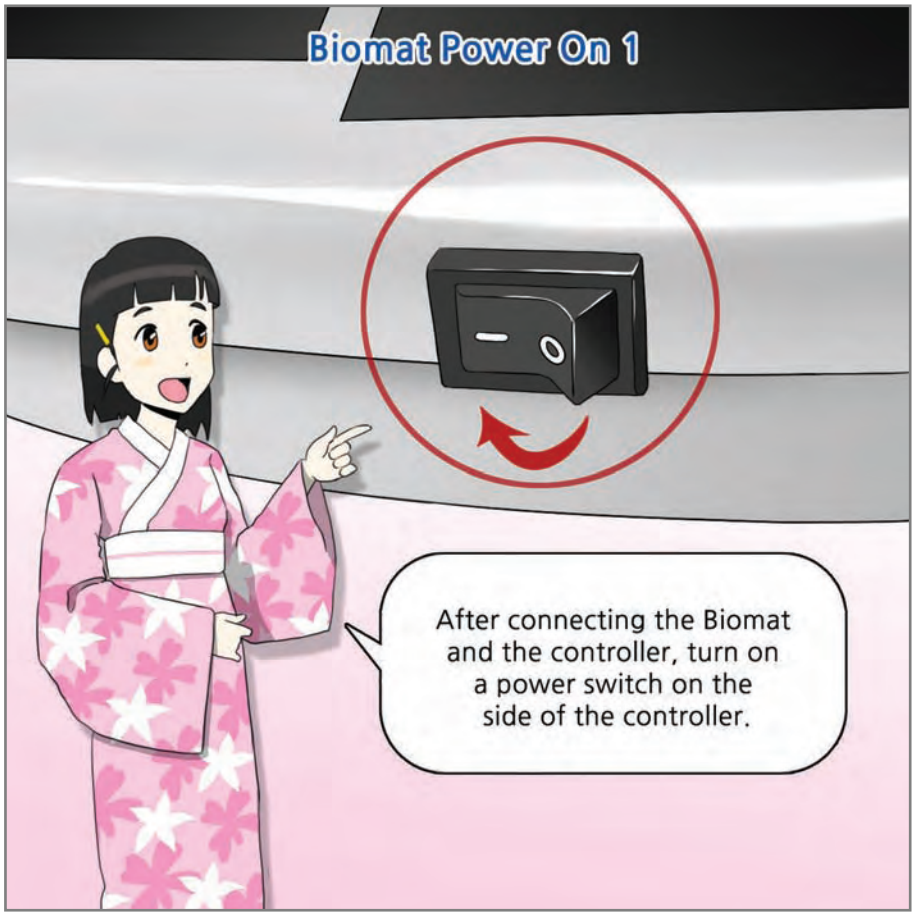


With a king-size or queen size mat, you can control temperature of left and right side independently.
As there are two connectors in a king-size or a queen-size mat, you can control temperature of left and right side independently.
* You can control temperature of right and left side independently only when connecting two controllers.



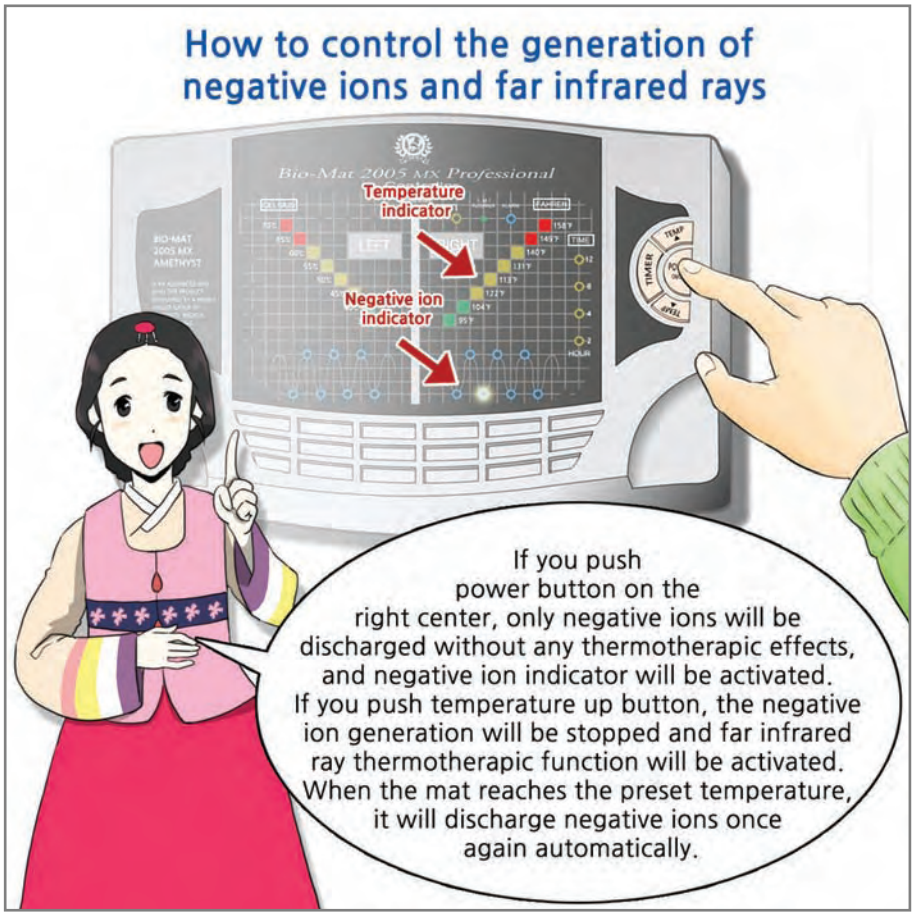
Connection of the Biomat and the controller
Connection2
Connection1
After connecting the Biomat and the controller, insert power plug of the controller in a receptacle on the wall. Now you are ready to use the Biomat.



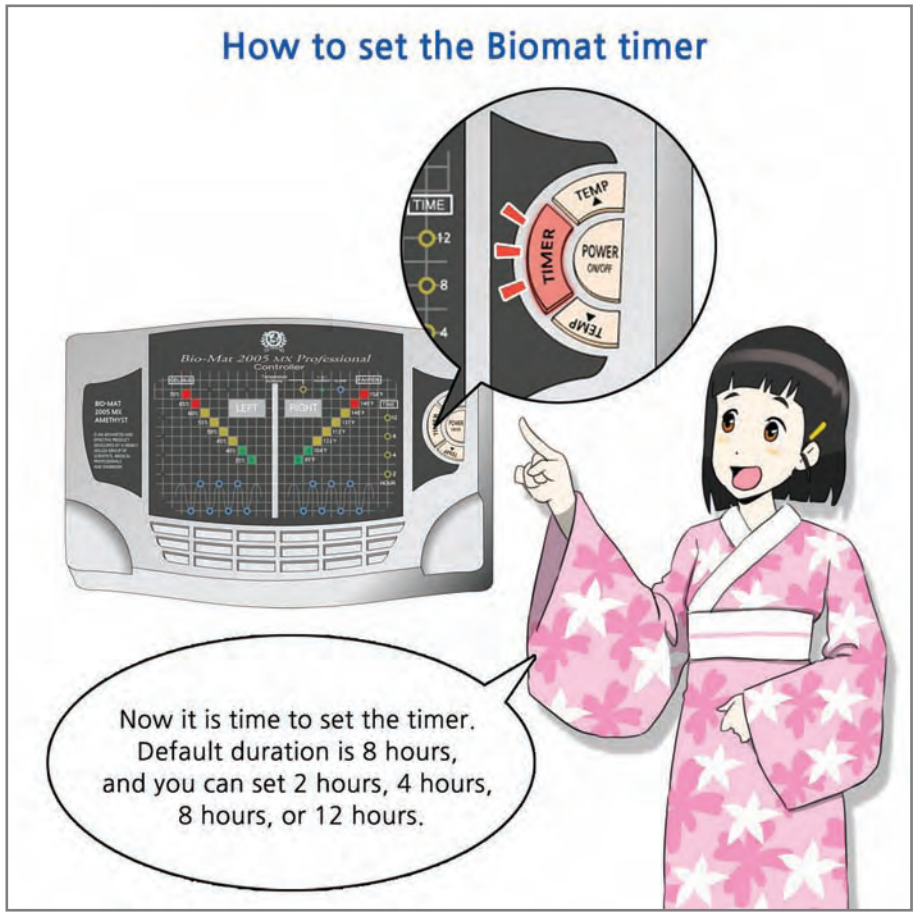


Forgive a person a day, and you can remove a disease a day. (British Saying)

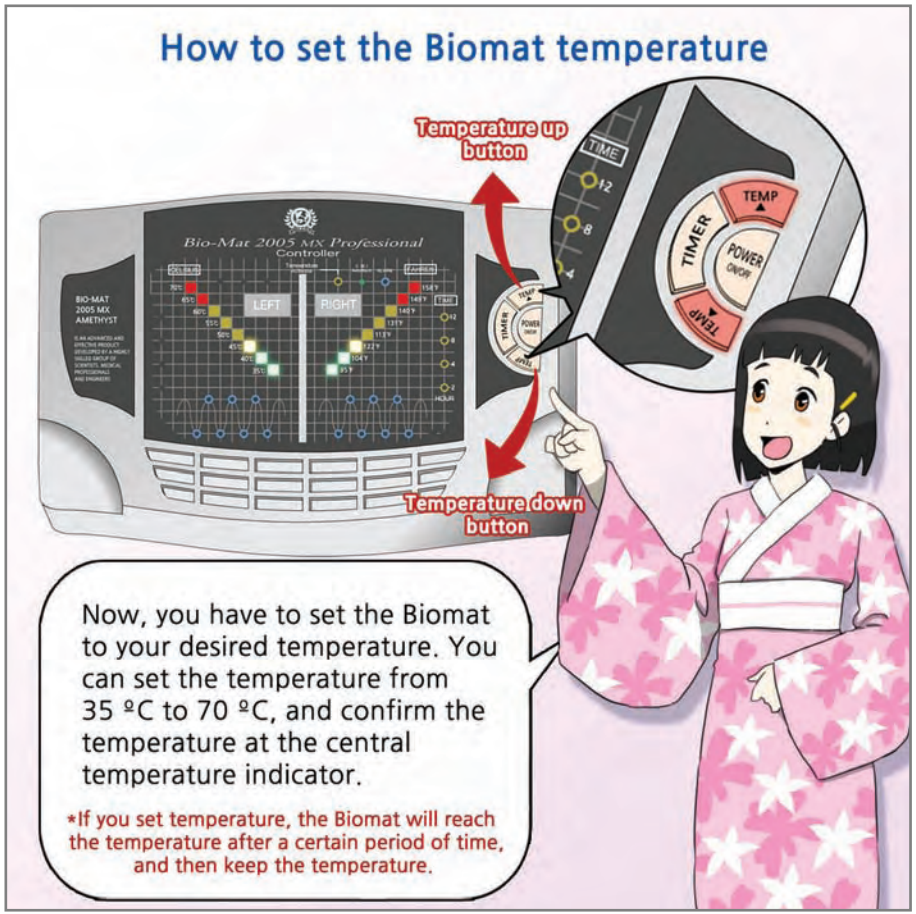
How to control the generation of negative ions and far infrared rays

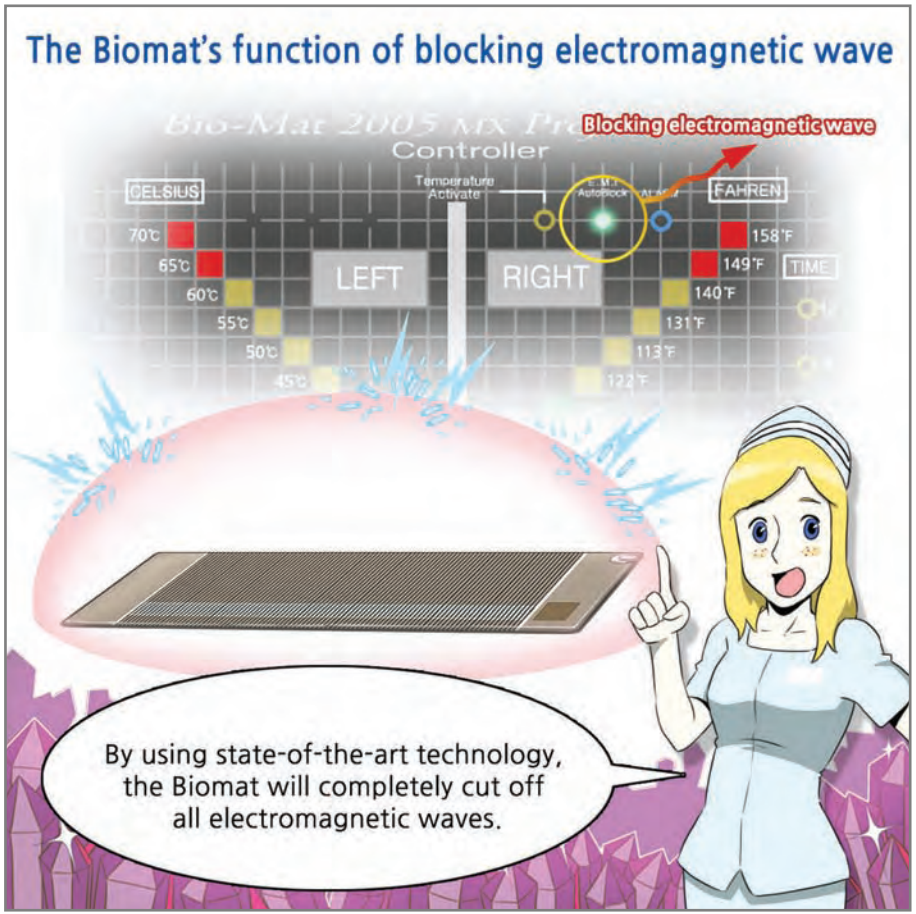


How to set the Biomat timer

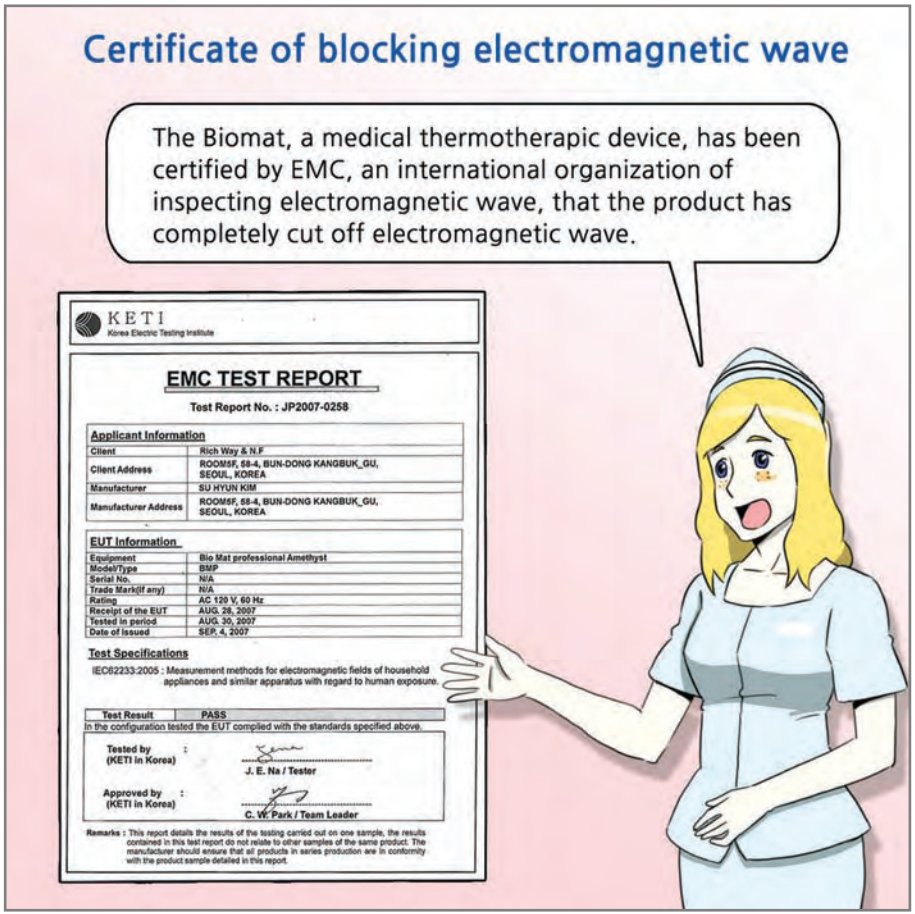


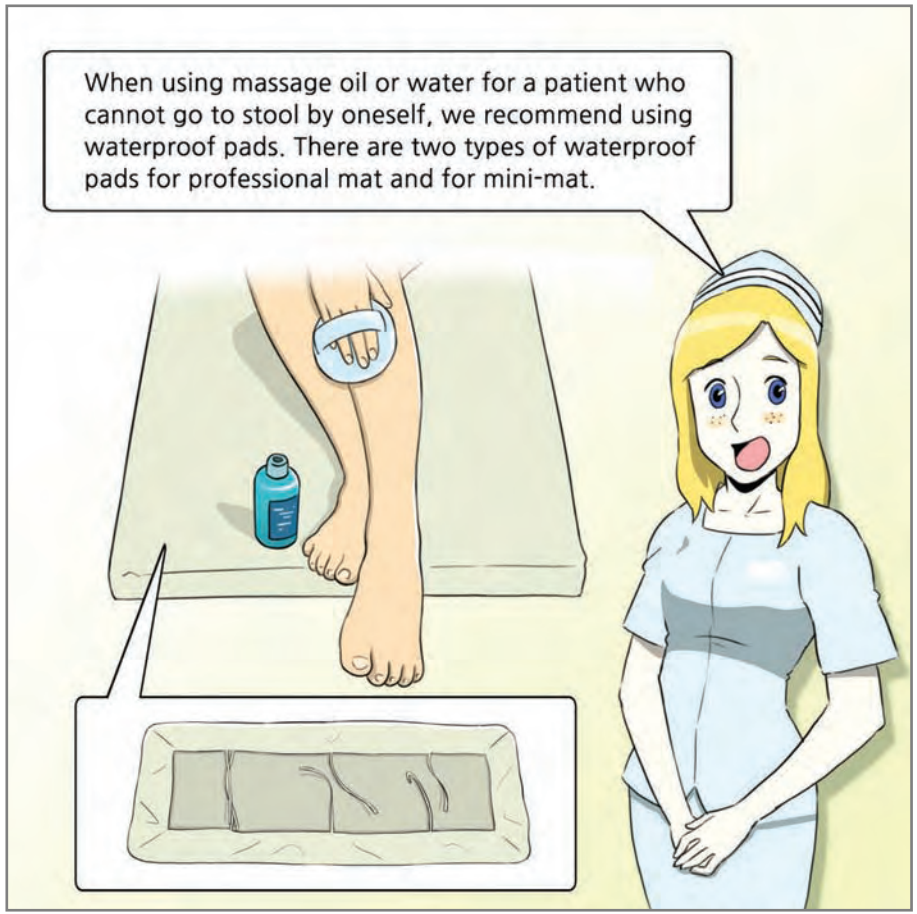
Darkness is conquered not by fighting but by lighting.



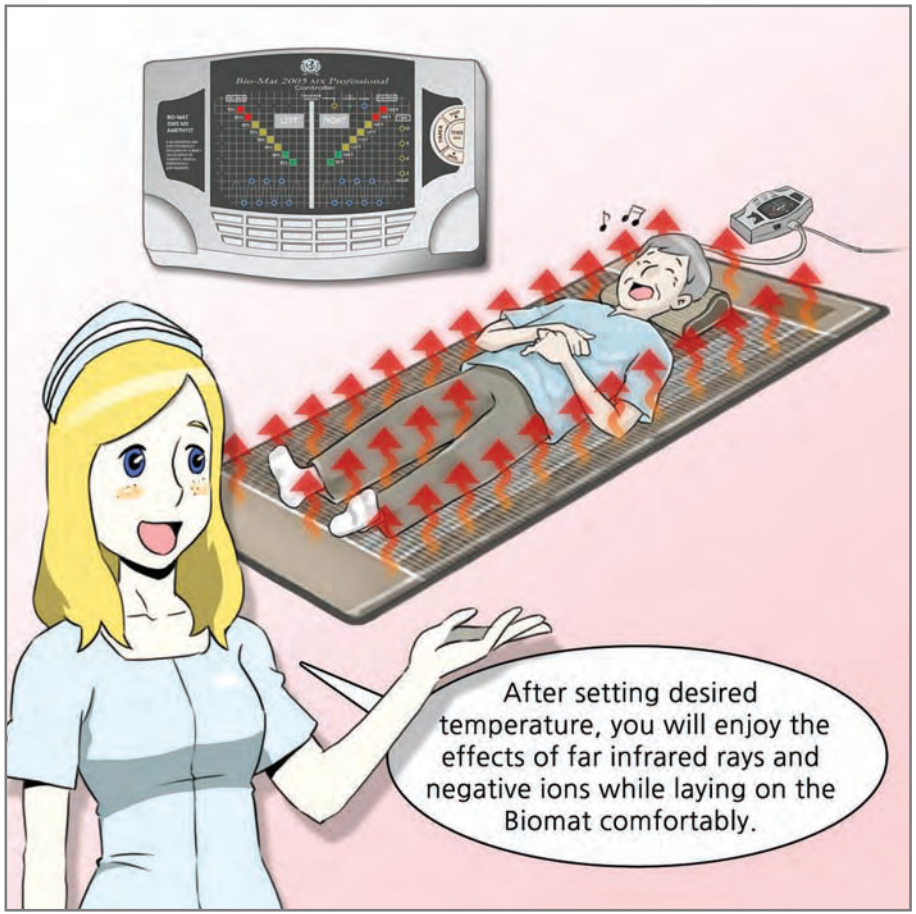


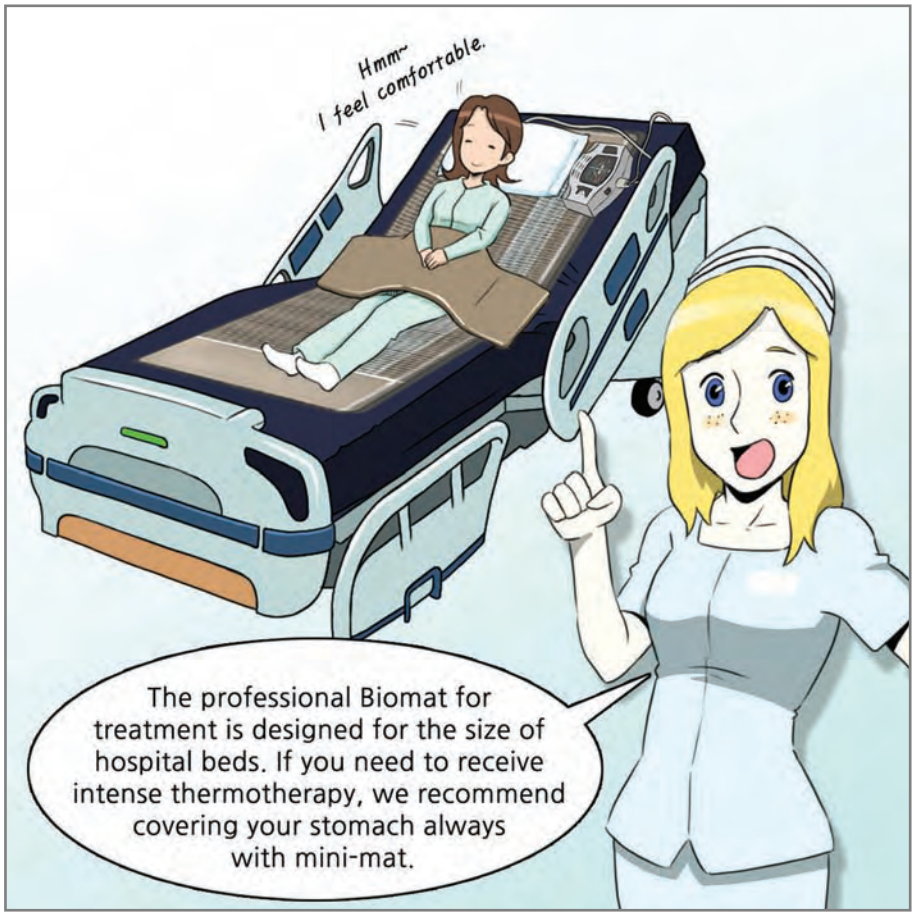
Hyperthermia has been used since several thousand years ago, and doctors call it diaphoretic detoxification therapy.





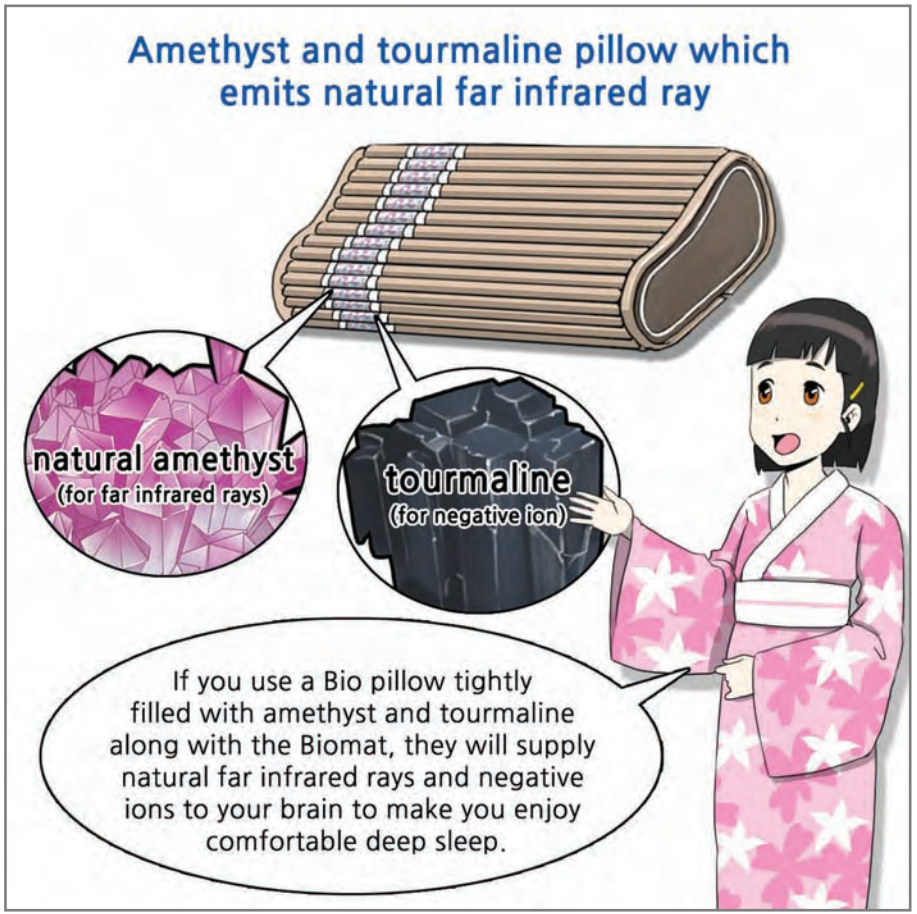
Medical hyperthermia has effects on metabolism increase, good circulation, antibiotic treatment and especially detoxification.





[About Chills No.1] Chills are the source of all kinds of disease.

[About Chills No.2] Chills on the body are worse in summer than winter.

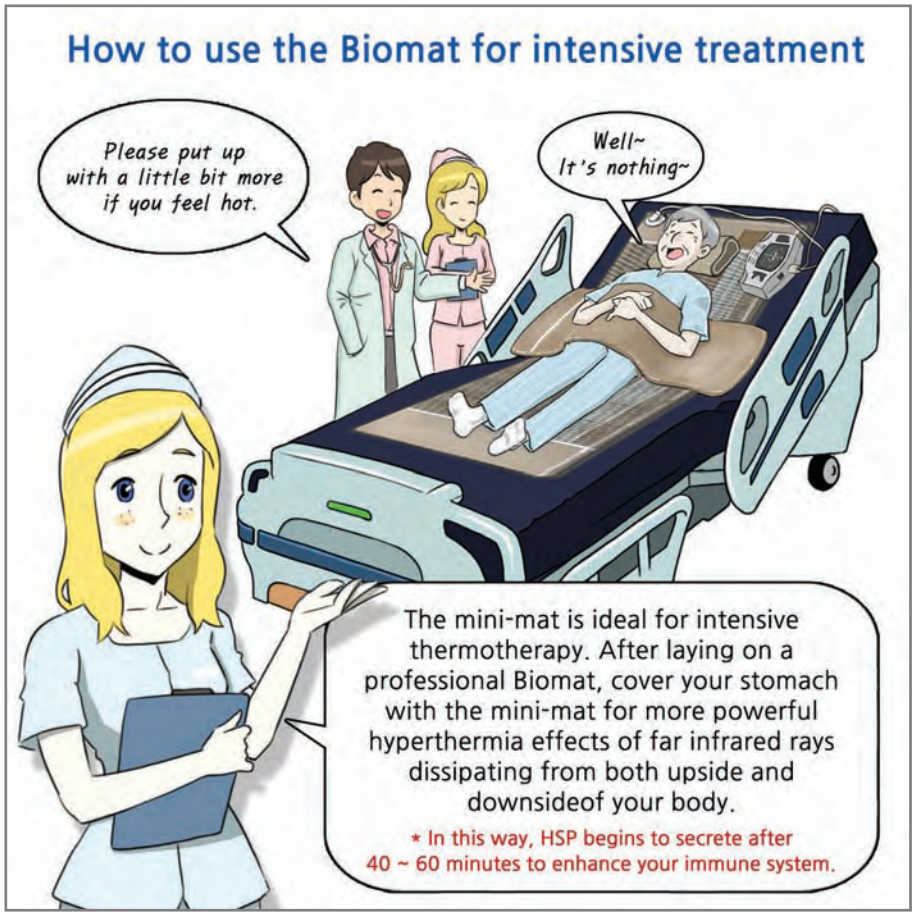


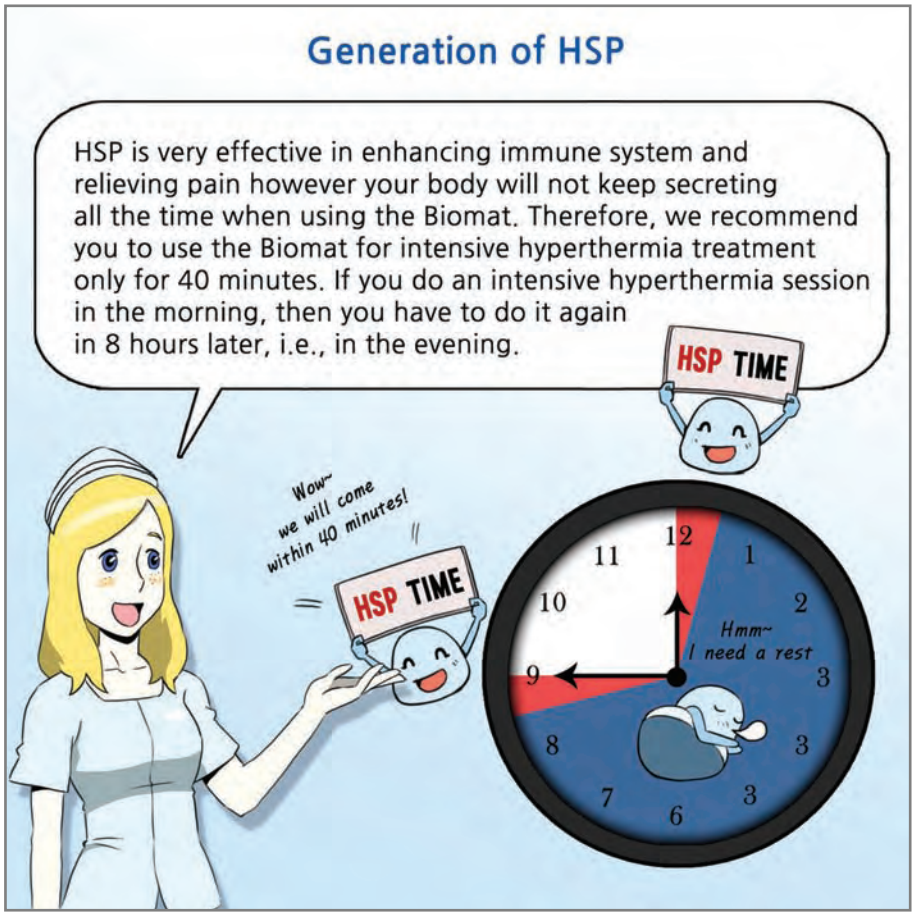
[About Chills No.3] Chilling the body makes it stiffen.

Before taking an intensive treatment, drink a lot of water or high-quality salt water.

It is important to consume Detoxi ion salt before performing thermotherapy.

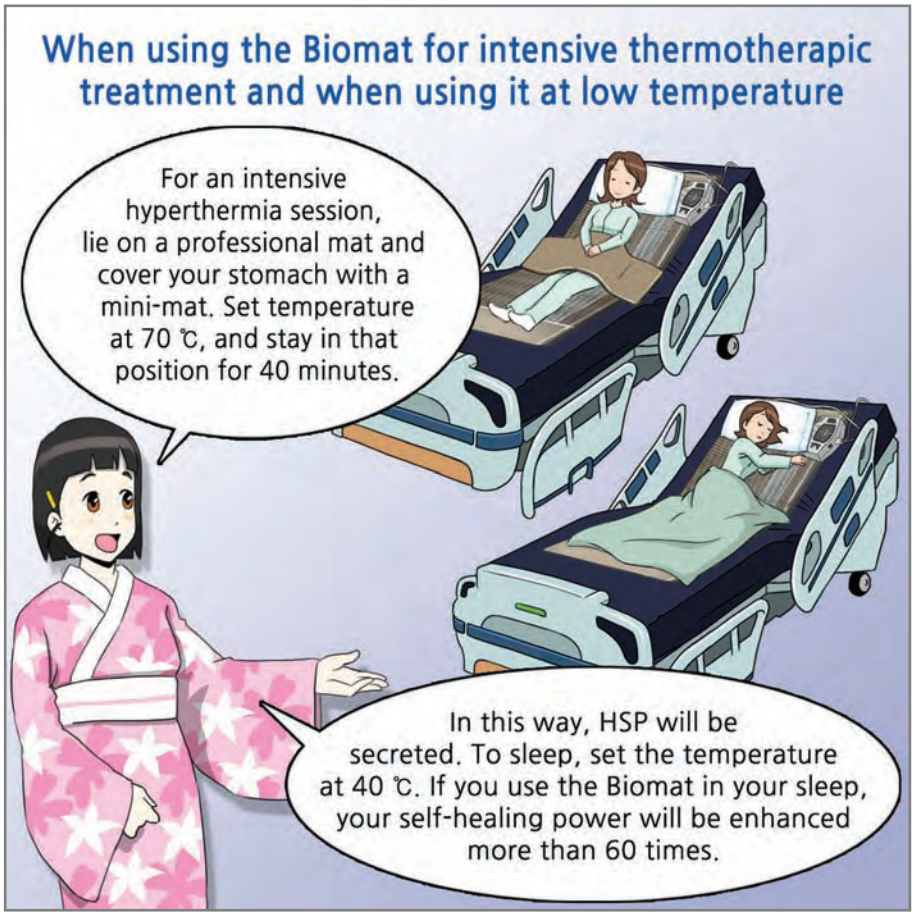
[About Chills No.4] Chilling the body causes pain. The solution for the problem is only to warm the body.





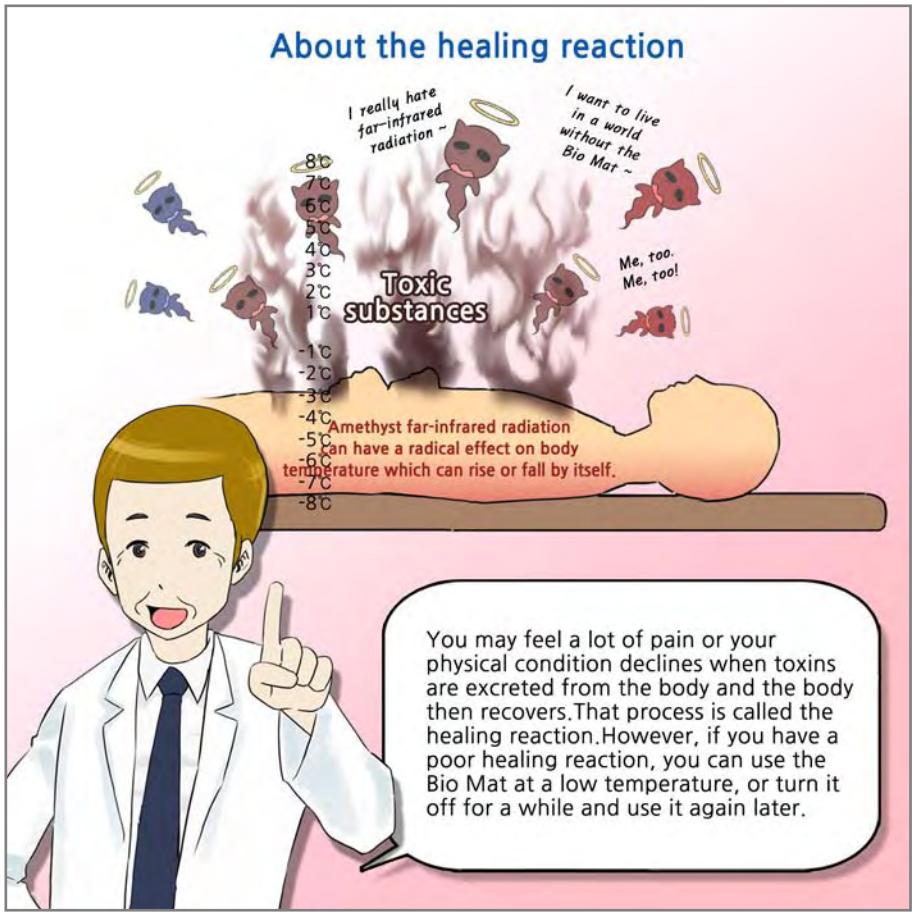
[About Chills No.5] Chilling the body causes obesity. The primary cause is that fat on the body becomes cold and stiffens.

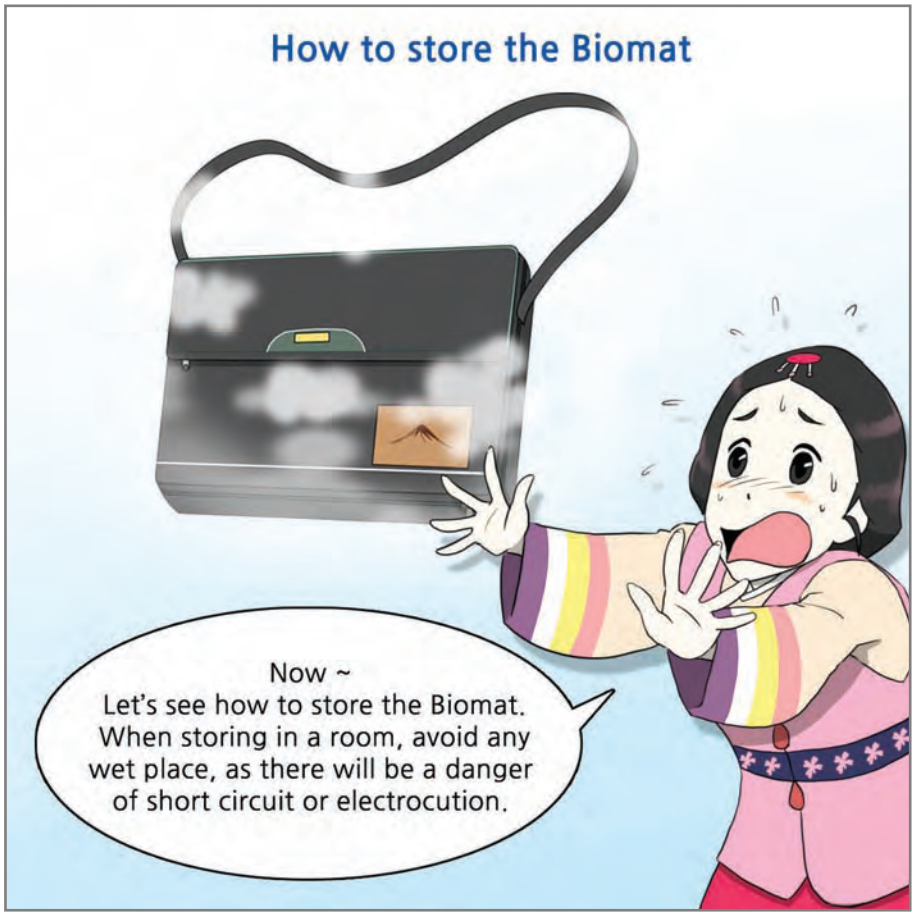
When using the Biomat for intensive thermotherapic treatment and when using it at low temperature



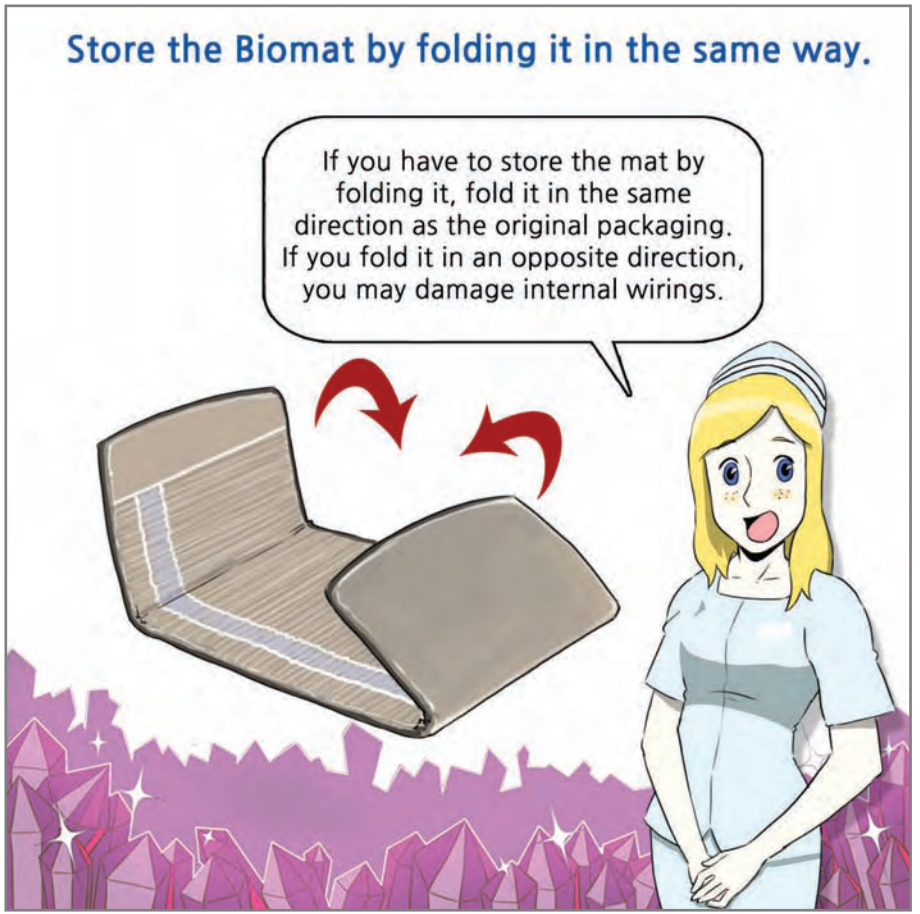
The following persons need to be careful when using the Biomat.

Children should be brought up warmly. (German Saying)





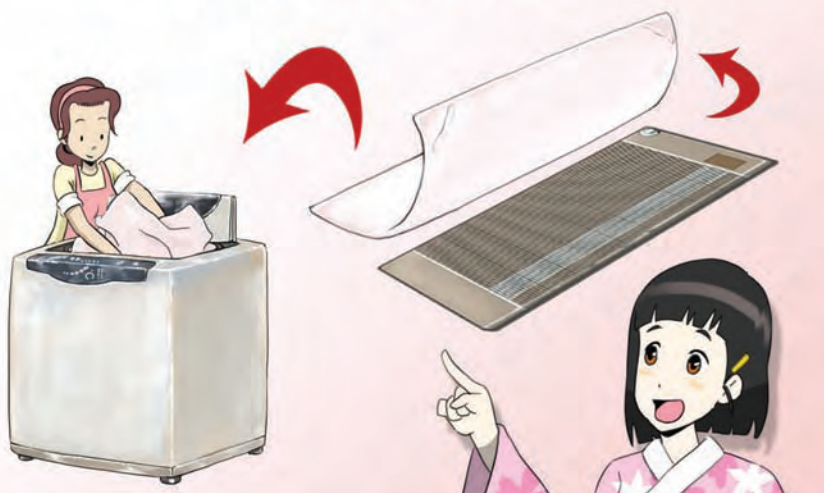
The feeling of love begins with warmth. (Francois Sagan)



Low body temperature causes bad circulation due to the stiffening of red blood cells. This disturbs the process of excreting waste and toxic matters from the body and therefore causes various kinds of disease. (Naohisa Ishibashi, MD at the Kobe medical institute)

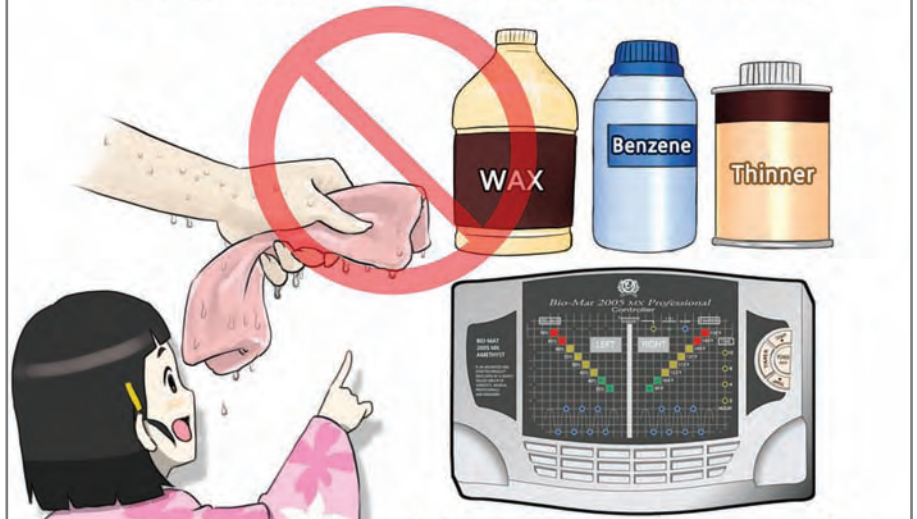
Hyperthermia is effective if used for at least 30 minutes.

You can wash your pad.



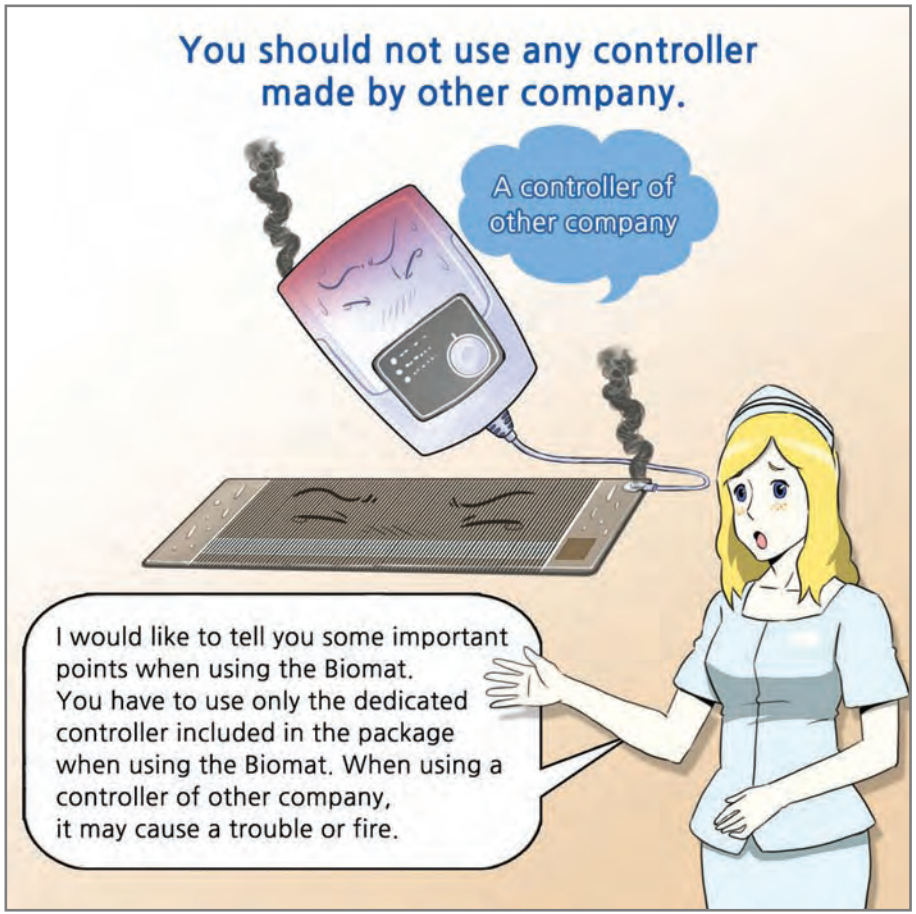
You can take off the pad from the Biomat, and wash separately. Hang dry the pad.

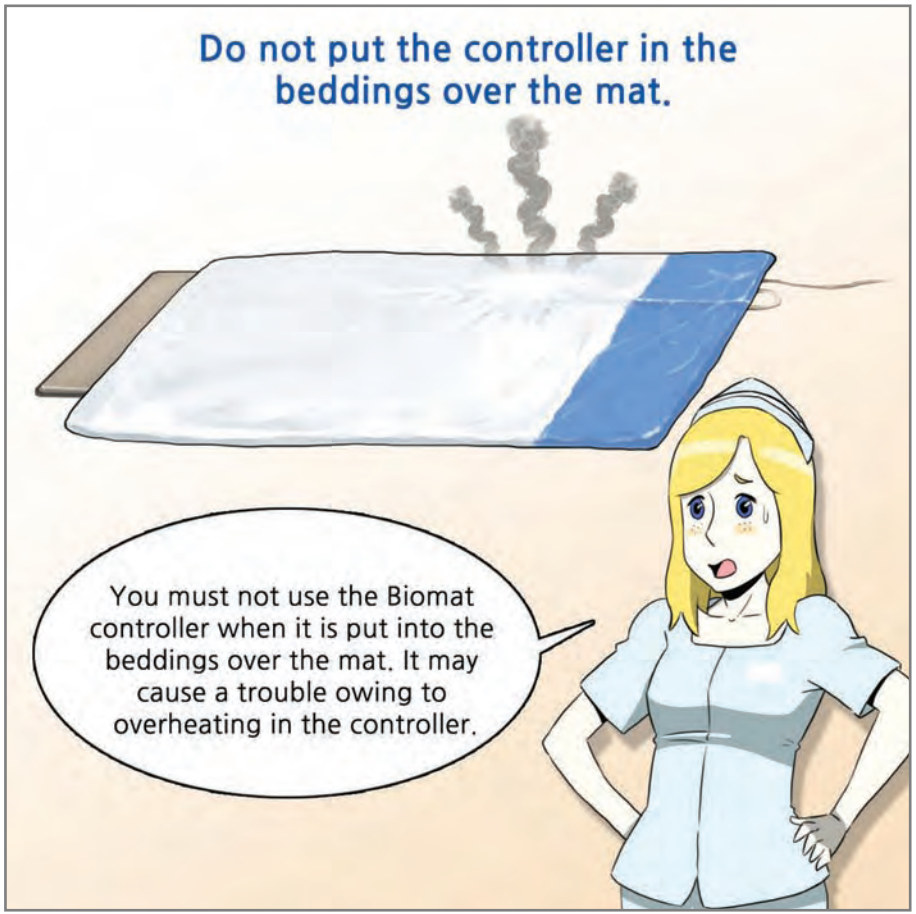
Be careful when cleaning the controller.



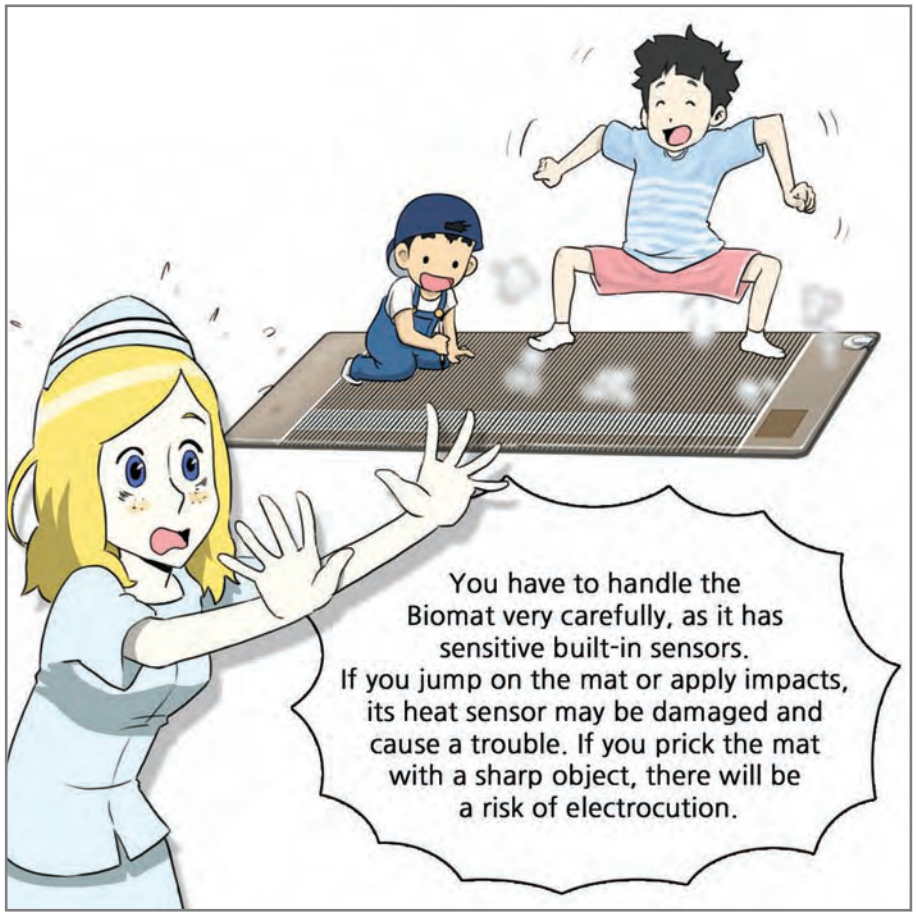
When cleaning the controller, do not use wet towels. If water enters into the product, it may cause a fire or trouble.
Also do not use thinner, benzene, or wax. It may cause the change of color or shape.

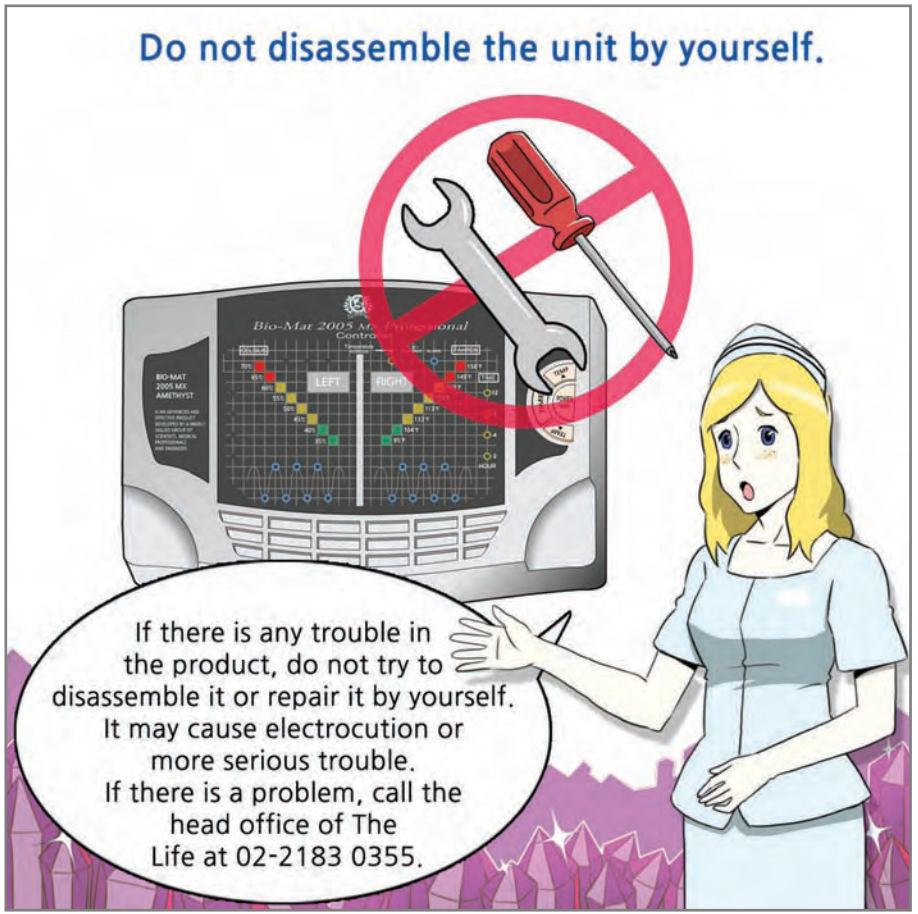
Hyperthermia is a powerful weapon that the body uses against diseases.



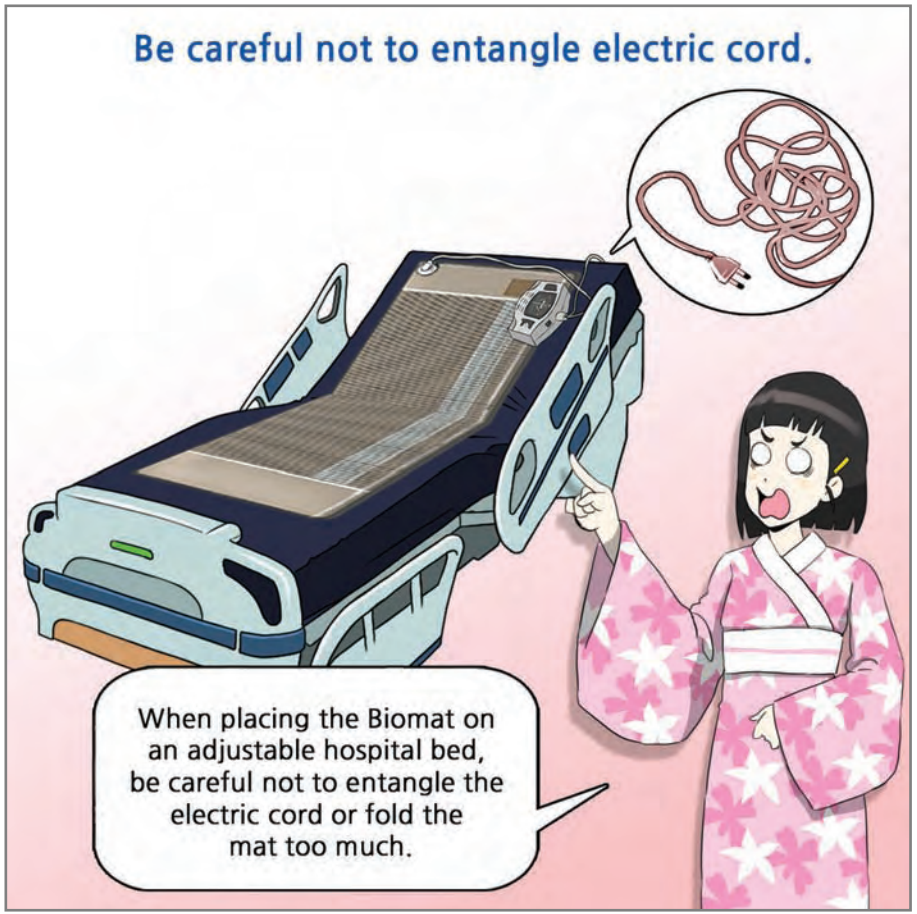


The metabolic rate increases by 100 percent whenever the body temperature rises by 1 degree. The increased metabolic rate elevates the production of interleukin, an anti-inflammatory substance. (Gaten, Doctor of physiology, the U.S.)

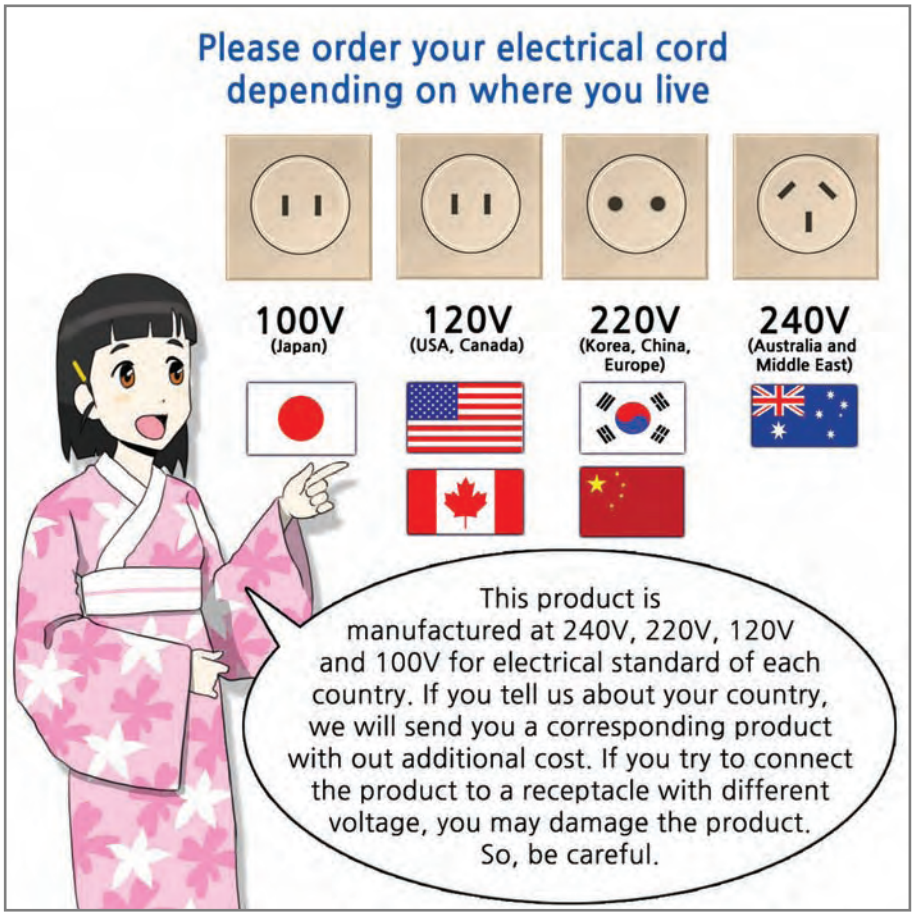


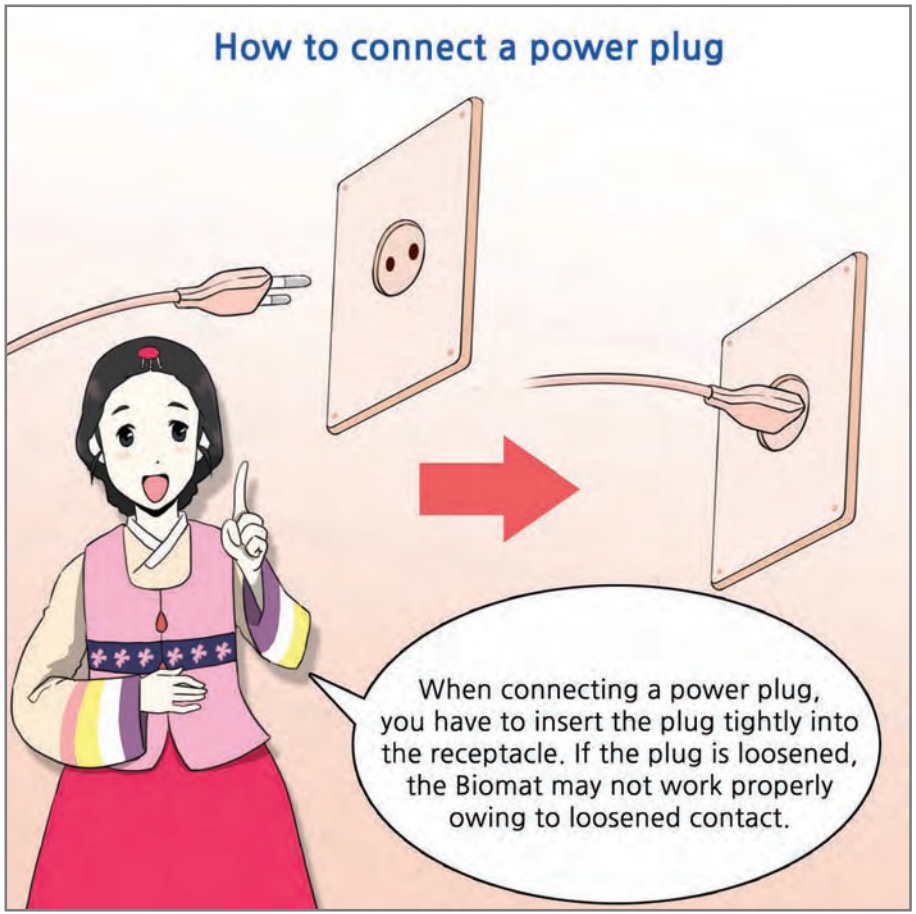


Hyperthermia, which cures diseases by raising body heat, allowed Dr. Cooley to win the Nobel Medical Prize in 1920.

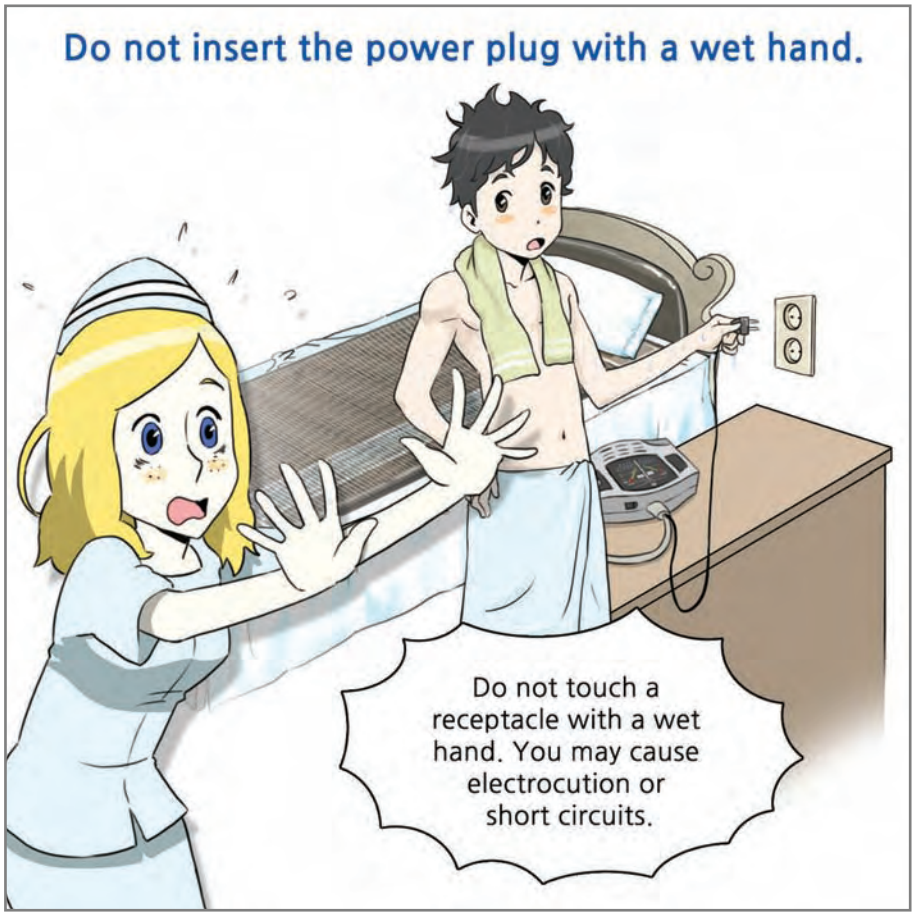


Hyperthermia is the source from which a cure to all kinds of diseases can be found. (Parmenides, Doctor in Greece,500BC)





Parmenides can be used safely to treat many kinds of diseases as a subsidiary therapy because it strengthens the body temperature and heartbeat. (Dr. Douglas Louis in the U.S., 1970)



Hyperthermia is a kind of detoxification. It contains neutralizing pesticides, herbicides, and drugs, and it is an effective way to eliminate toxic matter from the system, initially through the skin, and secondarily through the intestines and the kidneys. (Dr. Gard, Cancer Support Center of the USA)

The Biomat awarded a citation from the United Nations.

The Richway Biomat received a citation from the United Nations for its contribution to health care enhancement of the people around the world.

THE UNITED NATIONS ASSOCIATION

CITATION OF SPECIAL MERIT

Dr Jeanna Chun Kim, C.E.O.
RichWay International, Inc.

In recognition of her outstanding contributions, dedication in promoting people's health.

She has also demonstrated strong leadership and commitments to Primary Health Care Enhancement for the benefit of the needy people and the society at large.

In witness thereof in recognition whereof, I have hereunto put my hand and affixed the Official Seal of the United Nations Association, on the 16th of June, 2009, in Jakarta, Indonesia.

Signed by

Prof. Kemal Biomasri MD, Ph.D.
President
Jakarta, Indonesia

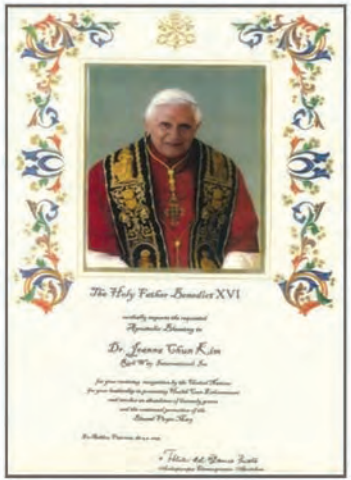
Richway received Pope Benedict XVI's Blessing of Richway for our contribution to healthcare products.

The Holy Father Benedict XVI cordially imparts the requested Apostolic Blessing to Dr. Jeanna Chun Kim, Richway International, Inc., for your receiving recognition by the United Nations for your leadership in promoting Health Care Enhancement and invokes an abundance of heavenly grace and the continued protection of the Blessed Virgin Mary.

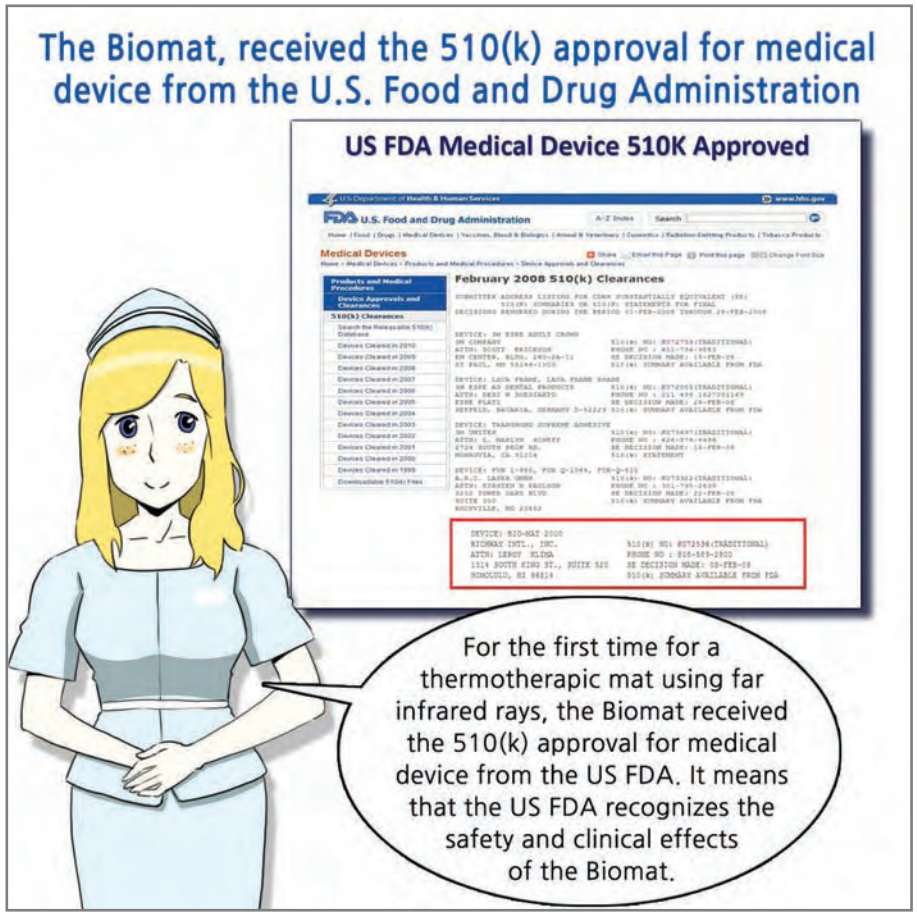
On May 6, 2009. From Vatican



Richway received a blessing of Pope Benedict XVI for its contribution to save numerous HIV-infected children in Africa and treat many hard-to-cure diseases across the world

We should call hyperthermia immunotherapy. (Dr. Denbayashi, GyohokuHospital)

It was confirmed that hyperthermia amplifies the effects of radiotherapy. (Ellen Jones, MD at Duke University Medical Center, The Wall Street Journal, 28 October 2007)



In 1991, sixty percent of six hundred patients in Tokyo Women's Medical University got the positive effect of prolonging their life through 1000 instances of far-infrared radiation hyperthermia(treatment).
(Yoo Yong-woon, the Head of Korea Far-infrared Radiation Medical Institute)

Get certification from the Korea Food & Drug Administration, the Korea GMP, and the Korea Electrical Safety Corporation

The Biomat granted a medical device certification from the Korea Food & Drug Administration, and safety certification from the Korea Electrical Safety Corporation, and also received GMP certification, CE certification, and ISO 13485 medical device certification.

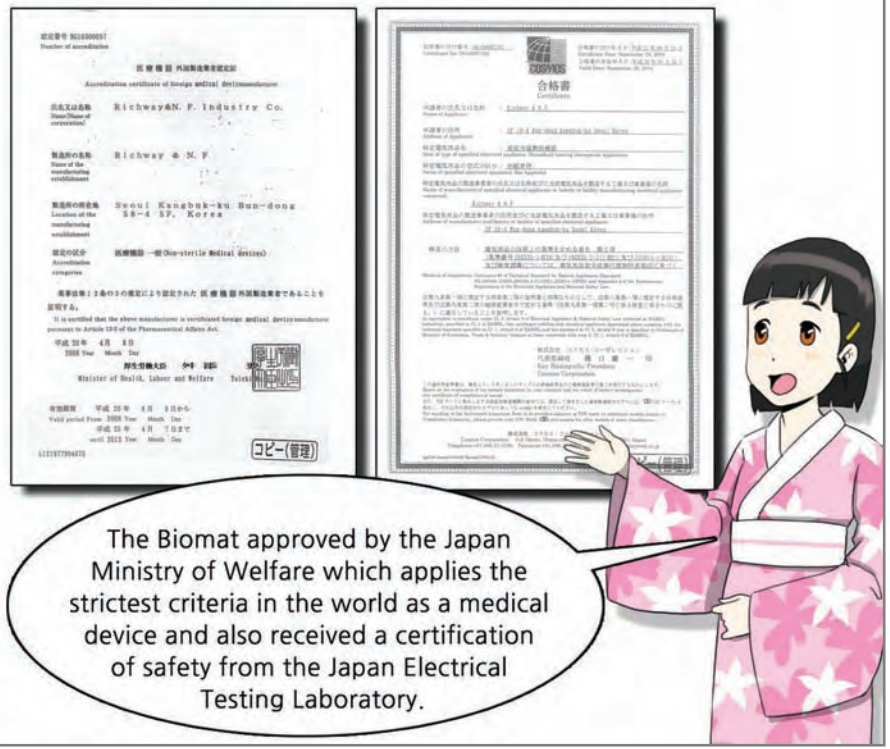
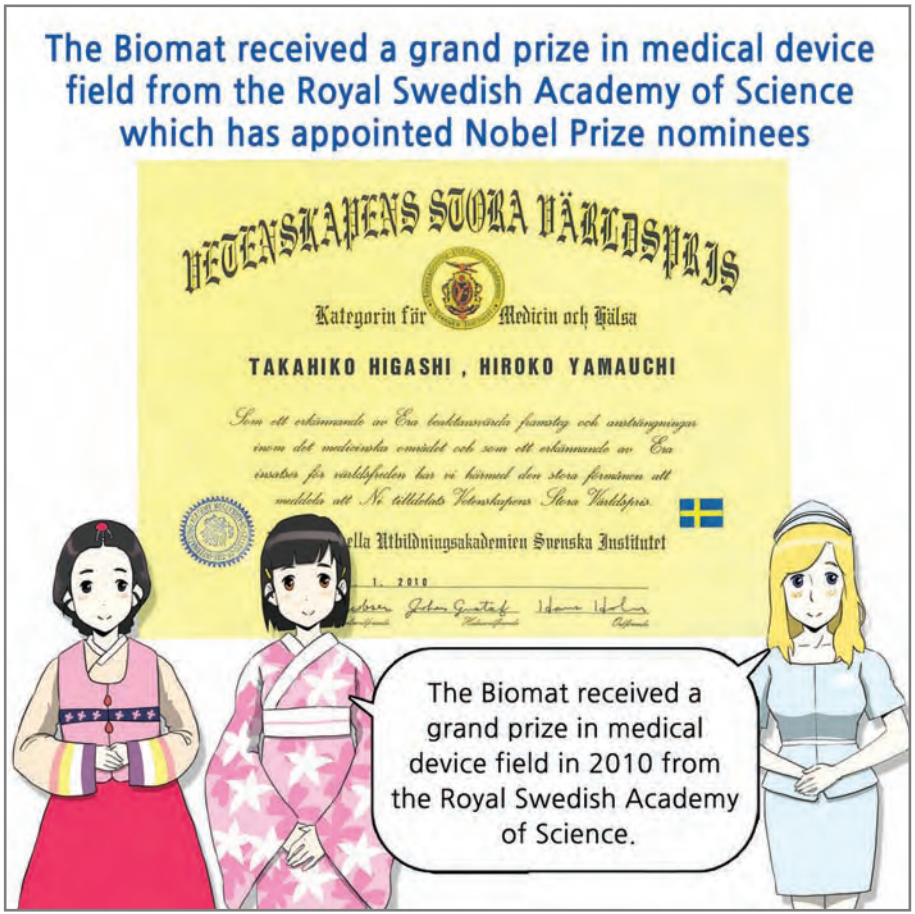
The Biomat, Approved by the Ministry of Welfare in Japan and the Japan Electrical Testing Laboratory

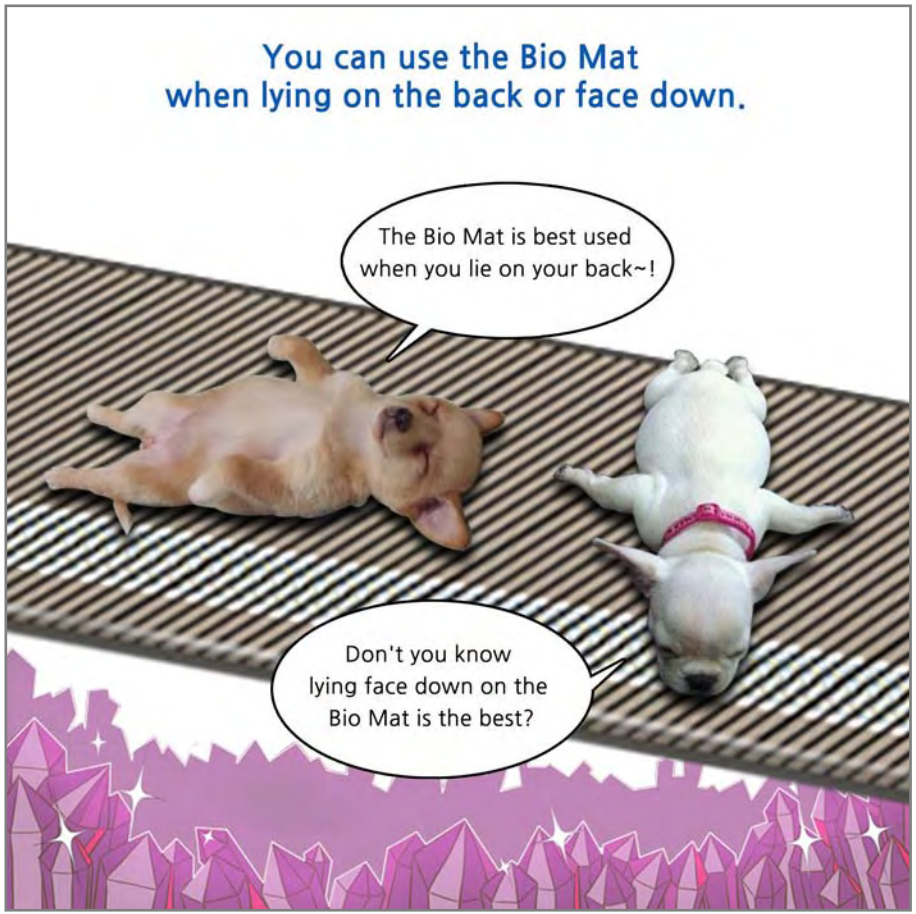


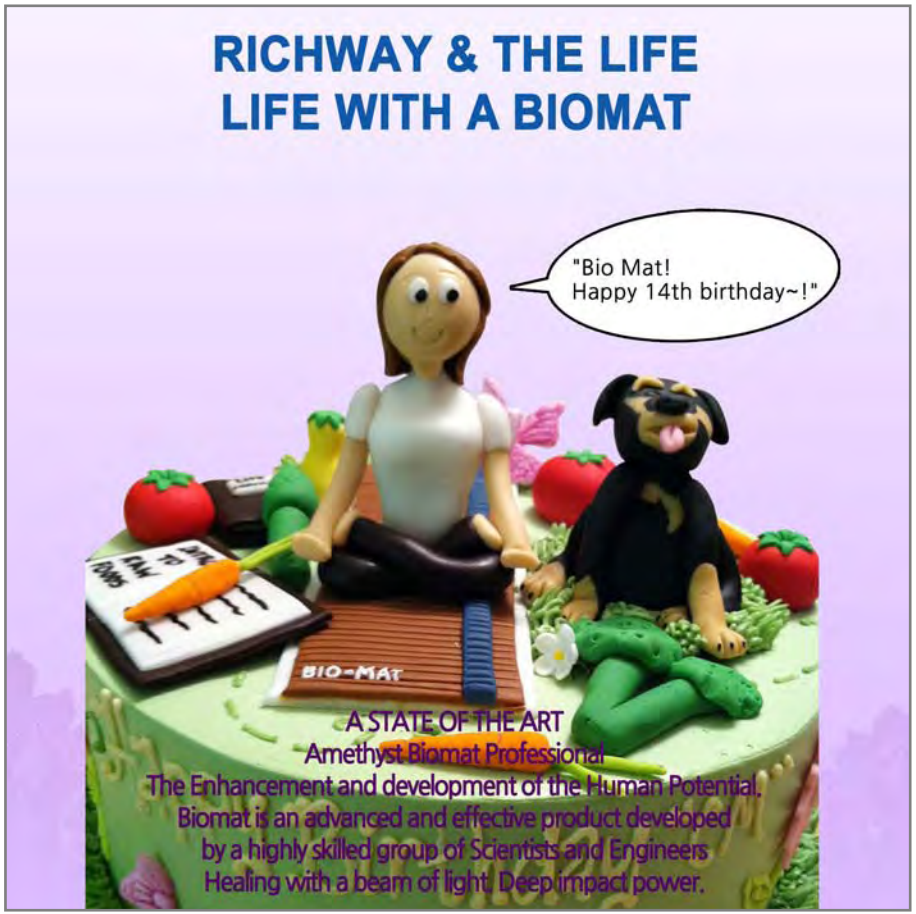
The Biomat approved by the Japan Ministry of Welfare which applies the strictest criteria in the world as a medical device and also received a certification of safety from the Japan Electrical Testing Laboratory.

Hyperthermia can help to conquer any kind of disease. Diseases which cannot be treated with hyperthermia are irremediable. (Hippocrates, 450 BC)



I will shine the disease-curing light upon you, and you will go outside and jump up and down like calves released from a stable. (Malachi 4:2)





The power of recognition, activity, and proliferation, the three major parts of immunocyte, depend on maintaining a warm body temperature.
Low body temperature causes the functions of immunocyte to cease and brings about a lethargic condition. (Ishihara, MD, 'The warm body saves your health')
